NSSL & HFX WANDERERS PARTNERSHIP

Soccer Nova Scotia (SNS) is thrilled to announce a new collaboration between the Nova Scotia Soccer League (NSSL) and the Halifax Wanderers.

As part of this partnership, the Halifax Wanderers will take charge of game day operations and scheduling for the NSSL skill center festival. This initiative, which will kick off as a pilot program in the winter of 2024/25, aims to enrich the experience for players, coaches, and fans by creating a lively and engaging atmosphere during league matches.

With their expertise and enthusiasm for the sport, the Wanderers will introduce innovative programming and resources to our community, promoting skill development and nurturing a love for soccer among our skill center age groups.

INTRODUCTION TO SKILL CENTERS

Every person involved in soccer in Canada deserves an enjoyable experience with the game, regardless of the role they play, their age, their level of experience or their ability. For young players, an enjoyable experience means that they have access to high-quality programs where they can have fun with their friends, learn new skills and play the game in an appropriate format. Clubs play an important role in this, as they are the primary providers of soccer programs where young players experience the game in Canada.

Canada Soccer has created the Skill Center Programs to guide clubs towards best principles in player

development by taking a nationally coordinated approach to developing young soccer players. Skill Center Programs provide a challenging, enjoyable environment for players to develop and nurture the skills required to succeed in the game of soccer.

By taking a structured, long-term approach to player development – based around the principles of Long-Term Player Development (LTPD) – our young players will develop the foundation of fundamental skills required to succeed at whatever level of the game they aspire to reach.

SKILL CENTER GOALS

The best environment possible for as many young players as possible for as long as possible

1.

Keep more young players involved in the game for longer by providing them with an enjoyable experience with the game

2.

Produce clear training guidelines for clubs so they can deliver the best possible environment for young players in their region.

3.

Produce better players across Canada by increasing opportunity & access to better training and competition for more young players.

Canada Soccer Skill Center Programs are aligned with the best principles of player development from around the world. The underlying aim of the Skill Centers Program is to provide the best environment possible to as many young players as possible for as long as possible
