March 2023

Welcome to our Technical Director, Matheus Da Silva

In late February, we welcomed Matt to the PCSPMSA team as Technical Director. Since coming on board, Matt has shown fervent hope for our associations growth and continued success.

The Executive Committee feel that Matt is a great fit to this association and we are excited to see all that he has to offer to our players, coaches and soccer community.

Words from our Technical Director:

I was really happy and excited with the Club's future after having my first meeting with the coaches. I could see the truth in what I have been hearing about how great and passionate the association is with the sport!

I would like to mention that we will be running our first Goalkeeper Development Camp, for all ages and skill levels.

We are still taking in registrations for our BUI3 and GUI3 Metro teams. Please contact me for more information.

Thank you,
Matt
