Attention all coaches in the province of Quebec:

The Quebec government has created a concussion protocol specific to the province's Sport, Health and Education sectors. Before completing Making Head Way, please review this video by Dr. David Elleberg of the University of Montreal.

Choose your module

The CAC has developed a number of sport-specific versions of these modules in conjunction with Canada Soccer, Snowboard Canada, Speed Skating Canada, Freestyle Ski Canada and Football Canada. If you coach one of these sports, select the sport-specific module for additional content and examples relevant to your sport. If not, don't fret! The Making Head Way in Sport (generic) module covers the same information that is relevant across sports.

Please note that this eLearning module is not optimized for mobile devices.

A grid of six module selection cards on an orange background. The cards are arranged in two rows of three. The top row contains 'Sport (Generic)', 'Soccer', and 'Snowboard'. The bottom row contains 'Speed Skating', 'Freestyle Ski', and 'Football'. Each card features a red line-art illustration of a person in a sport-related setting. A large blue arrow points from the left towards the 'Soccer' module card.
