Memorandum

Government of Alberta COVID 19 Restrictions

November 24, 2020 the Government of Alberta and AHS have implemented strict guidelines and enforcement for the province for the next three weeks.

There are 3 main areas with different degree of restrictions for sports:

- Restricted areas – Edmonton/Calgary – no sports
- Enhanced areas – Purple on map – no sports unless approved
- Open areas – Yellow on map – open as status quo

Provost is in the MD of Provost #52 and remains in an “Open” area so we can and will continue with practices and games as Hockey Alberta and our respective leagues allow us to do so.

If our case numbers within the MD rise to the threshold set out by the Government of Alberta we will be switched to an “Enhanced Area” and hockey will be shut down so please do your part for all.

With that being said, we as an Association are asking you as volunteers and parents to limit your exposure in the next three weeks by restricting your travel to Restricted & Enhanced areas for Essential Business only, i.e. medical appointments. Do your shopping, dining, etc. locally within your MD and other close “Open” areas of the province and practice safe hygiene to help keep everyone safe and our kids on the ice.

We will continue to monitor and update the situation as we move forward.
