

QC UNITED VACCINATION POLICY

Proof of Vaccination Requirement at QC Facility

Effective January 2, 2022, QC United requires that individuals 12 years of age and over provide proof of full vaccination (2 weeks post second dose) or negative COVID-19 test to gain access to the QC Facility.

The following are acceptable forms of proof of full vaccination:

- Wallet cards received at the time of immunization
- A printed copy of your [MySaskHealthRecord](#) vaccine certificate (with or without a QR code) or a 'screenshot' of your vaccine certificate (with or without a QR code) saved to your device
- A COVID-19 vaccine printout from Saskatchewan Health Authority Public Health
- A QR code/[MySaskHealthRecord](#) vaccine certificate uploaded to SK Vax Wallet app

Proof of Negative Test

Individuals who do not have proof of vaccination, have the option of providing proof of a negative COVID-19 rapid antigen or polymerase chain reaction (PCR) test result within the last 72 hours. This test is to be done at the expense of the individual. A list of locations and labs offering testing services is [available here](#).

Self-administered take-home rapid antigen tests will not be accepted as valid proof of negative COVID-19 test results.

All information provided will be used for verification purposes and not kept on file. We will not be keeping a record of vaccine information; therefore, individuals will be required to provide proof of vaccination or a negative test result every time they enter.

In conjunction with the above vaccination mandate, masks must be worn from the entrance of the building to the field and everywhere in between. Masks can be removed for players only when they are actively participating. When players are on the sidelines/benches, they will need to wear a mask. All spectators, team staff and technical staff must always wear a mask while in attendance. Only those under the age of three are exempt from wearing a mask inside the facility.
