- a) There will be one five (5) minute sudden death period played.
- b) Timeouts are not permitted by either team.
- c) Teams do not change ends.

- e) Teams are required to provide the referees with their first three (3) shooters at the end of regulation before overtime.

Playoff format

Divisions with 2 teams will play a “Best of 3” Series. First team to win two games is declared the champion

Divisions with 3 teams will play a “Round Robin” Series. Each team will play the other 2 one time. The team with the Best record will be the Home Team in the finals and the second best team will be the away team. If there are ties please review the tie breaker format. If three teams are tied and one team will be awarded 1st place using the tie breaker rules. The other 2 teams will play the “optional game” to determine a 2nd place team. The 1st and 2nd place team will then compete for the finals. If the 1st place team as not lost any games during the playoffs and loses the first game in the finals a second “optional Final” will be played.

Divisions with 4 teams will play a “Round Robin” Series. Each team will play the other 3 one time. The team with the Best record will be the Home Team in the finals and the second best team will be the away team. If there are ties please review the tie breaker format. If teams are tied in round robin, the tie breaker rule will be used to determine 1st place which will go direct to finals. 2nd place would then play 3rd place in the “optional game” to determine 2nd place to play in the finals. If 2nd, 3rd and 4th place teams are tied, the tie breaker rule will be used to award second place. Then the 3rd and 4th place teams will return to the top of the order for tie breakers to determine the 3rd place team which will compete in the “optional game” against the 2nd place team.

Shootout Format

- i. The Away Team shoots first.
- ii. The outcome of the game cannot be decided until each team has sent their first three (3) shooters or until one team can no longer achieve at least a tie by the end of the first three (3) shooters (ie the goal differential for one team is greater than the number of shooters remaining for the other team).
- iii. Each team alternates sending one (1) shooter at a time.
- iv. After the first three (3) shooters, if the score is still tied, each team continues to alternate shooters - the game ends as soon as one team scores and the other team doesn't.
- v. No player on either team may shoot twice until the entire roster of at least one team has been depleted. (ie if one team has 14 players on their roster and the other has 16 players on their roster, the round ends after 14 shooters on each team have participated). Once the roster has been depleted and if the game is still tied, teams may send shooters for the second round in any order but no player on either team may shoot twice within the same round.
