

## **RMHA Director Report, Equipment Director Yearend 2024/25 Season**

This was the second season Redcliff Minor Hockey used the current jerseys. They are in decent condition and beginning to show signs of wear. They should last 1 or 2 more seasons.

Following the 23/24 season I reached out to the coaches to find out what equipment the association should bring in to aid player development. From this survey a list was created. The association spent \$1937 on new player development equipment this year. Feedback from coaches was extremely positive. A subscription to IHS Hockey was continued this year as a resource for coaches to create practice plans.

A new storage locker was trialled for all teams to utilize the new equipment. Feedback on this new space was positive and this process will continue.
