Red Deer Minor Baseball Communication Flowchart

All communication must flow through the appropriate communications level. Misuse and abuse may be deleted.

The RDMBA Communication Chart is to help ensure issues or questions are dealt with in a consistent, timely, and effective manner. Issues from parents should come directly from team management to the Division Director, not directly to the RDMBA Executive. Communications directly to the executive may be disregarded without explanation.

Please remember that we are all volunteers. Your coaches, managers, Division Directors and Executive are people just like you who volunteered to aid in the betterment of our association. Please treat them as you would treat your neighbor, with kindness.
