

Dear Fundraiser

Sysco is a high-quality distributor in the food and beverage Industry. We service restaurants, Hospitals, Grocery Stores, Food trucks, and many other locations with excellence and Professionalism.

We have a tried-and-true fundraising program that can assist any Organization raise money, well providing restaurant quality goods people are already purchasing.

In this package you will see an example of a Fundraiser program we can tailor to your specific fundraising goals. We would love to work with you to achieve fundraising success.

In This package you will find an example of Fundraiser POS and Order forms that we will custom build for your Fundraiser. As Part of the process, we will work to customize products. POS and all other aspects to work for your organization. All pricing will be discussed as part of the set-up process and are not included in this package as we want to verify the information is as accurate as possible.

Here is a brief overview of how our system works:

We will work with you to tailor our offering to your organization. You can have an offering of 1-24 select products to sell. Once finalized we will provide the branded order form and product guides that can be easily emailed out or printed off by your students/ Team members, to help them fundraise. Note: Pricing will be provided when we set up your fundraiser. The goal is to have your organization make \$5-10 per case of every product sold.

Once we have designed the fundraiser, we will schedule a 2-week period to sell. We are open to your suggestions if this time frame doesn't work. Once the fundraising period is over, compile the orders and provide to your Sales Associate. We ask that final orders be placed Roughly 3 weeks before date of delivery so we can insure we meet all necessary internal ordering timelines. Dates can be finalized when we customize the fundraiser to your organization. And all dates will be included in info packages sent out to Students/ Team Members.

During the planning phase we will set a delivery location and time. It helps to have people who have purchased goods to be there to pick up when our truck delivers, ensuring quality of items is upheld. These instructions can be included in your fundraising packages.

You will be responsible for collecting payment for goods purchased from your "customers", our invoice will be due at time of delivery by certified payment. It will only be the cost of goods and a minimal delivery fee. The "profit" will be yours to do with as you please.

We would love to work with you to help fundraise for your organization. If you have any questions or would like to get started on your next fundraiser, please feel free to reach out.
