## **Athlete Personal Gallery:**

Pre-ordering a “PERSONAL GALLERY” will guarantee 6 -10 full-res digital photos of the athlete in action. These can be used to make your own high-quality prints. They come with a “personal license” to the photos, so they can be used on social media or shared with friends and family. Order forms will be attached to this package, The personal gallery orders should be submitted before the start of the tournament so that the photographer can schedule out their weekend.

***Single Athlete - \$110***

***2-4 Athletes - \$85/Athlete***

***Over 5 Athletes - \$75/Athlete***

## **Full Game Action Photos (popular for play-off and finals):**

If a team wishes, a full game can be photographed for \$400.  
\*PLEASE NOTE\* with full game sessions I cannot guarantee a minimum number of photos of each athlete but will do my best to capture photos of all players that are participating in the game. You can expect to receive 75-100 edited photos with this option.

**\*ALL PERSONAL GALLERIES AND GAME PHOTOS ARE TO BE PAID FOR IN ADVANCE VIA E-TRANSFER TO [idealimagesrd@gmail.com](mailto:idealimagesrd@gmail.com) \***

### **Personal 8x10 Single Photos (includes full res digital):**

Single 8x10 photos can be ordered and printed at the tournament. Included with the print will be a full res digital copy of the photo email to you directly. We will have a table set up at the Kin City Twin Arenas to show samples and take your orders. This 8x10 package will be \$20 each.

### **Public Tournament Gallery:**

Several photos will be taken throughout the tournament and be posted (as time permits) to the public tournament gallery for individual or package print sales. The full gallery will most likely not be complete until the tournament is over. You will have the opportunity to order physical prints that will be delivered to your home, or you can purchase a digital download to print yourself and share with friends and family. Below is a QR code that you can scan with your phone's camera that will take you to the tournament's public gallery.

## **\*\*A Note about how the “Personal Gallery” works and delivery times\*\***

With some sports photography services, images will be offered during an event for sale. They will be uploaded to a computer where the customer can pick and select their images and have them printed on site. The disadvantage to this system is there is no editing whatsoever. The images are shot in a lower quality format and you only “get what you see”.

What I offer is a completely different and more customized product. After a large event, I might have anywhere from 10,000 to 20,000 images. These are shot in RAW format (Similar to what we used to have as “negatives”). Once the event is over, I will review every single image to “cull” and sort only the best images. Once sorted, I will pick the “best of the best” and then manually edit each photo. Adjustments for crop, straightening, color, exposure, and sharpness will be applied. Only then will I offer the final image to the client.

I will email you a link to your own private gallery. You can share this gallery with friends and family as well as download the images onto your own device where you can keep, share, or make your own prints.

Due to this process, **please allow up to 2-3 weeks** for delivery of your individual player link. These memories will last a lifetime and will be worth the investment.
