Universal Refresher Required for all Officials Trained Prior to 2022-23 Season

For the 2023-24 season, officials trained prior to the 2022-23 season are required to complete the Universal Refresher Clinic. While it is not a rule change season, there are important changes to the National Officiating Certification Program and reminders for officials for the upcoming season.

Ringette Ontario currently has clinics posted at www.officiatingringette.ca/o/ and will continue to add additional clinics as facilitator availability is established. These clinics are offered virtually.

Any officials who were trained in Level 1 – Introduction to Officiating clinics last season do not need to participate in the Universal Refresher.
