Coaches Corner

BE THE COACH YOU WISH YOU PLAYED FOR

To all coaches, from first timers to experienced ones, this is something we can always remind ourselves to strive for. We've all had coaches we would like to forget but, that doesn't mean we can't learn from them. Our goal is to help kids move on to the next level in the game of baseball but more importantly, in life. Don't let your personal success come before the players'. At the end of the day, we want to keep players involved in this game as long as possible. All it takes is one bad experience to turn a player off from this sport. Watch the link below for some quick basic tips that you can always remind yourself to take into consideration. Remember, we're playing a child's game so don't be afraid to let your inner child come out when working with your players this season. Lastly, players will never care how much you know, until they know how much you care.

Much love, Coach Dagg.
