President Report – 2016 Annual General Meeting

Welcome to the 2016 AGM.

I would like to start by thanking both the board and staff members for a job well done in the past year.

In looking back over the years and looking forward to the future it is very noticeable that the direction of the SAS is continuously changing and this is something we have been trying to address. While we continue to grow in some areas such as coed we still struggle to fill the top divisions in both men's and women's division. Masters and classics are also divisions that are seeing some decline in registration.

Alignment is an issue that is quite regularly questioned and I can assure you that both the staff and board of directors work very hard and question all avenues when deciding on the division alignment.

While the SAS does realize that we are a recreational league we are still under strict guidelines from both SSA and Saskatoon Soccer Center and this is the reason we must enforce rules such as no alcohol in the dressing rooms and the penalty of non-registered players. While this has not been met with open arms by our members we still must enforce the rules and by-laws.

I am looking forward to see what 2017 brings to the SASI and I would like to thank the board of directors and the staff members for all of their efforts in 2016 and would to wish everyone a safe and happy holiday season.

Sincerely,

Gord Quinlan
President
