### **Technical Committee Report – 2016 Annual General Meeting**

The technical committee is comprised of board members as well as the operations coordinator from the office. This year's membership includes Lee Kormish, Adam Hamilton, Andrea Drummond, Alvin Thielman, Daniel April and myself as chair. Throughout the year, the technical committee has the role of reviewing Saskatoon Adult Soccer (SAS) rules and making recommendations to the board. This requires us to meet as required to review current rules and propose changes based on feedback from our membership, the board, from staff and from referees.

SAS utilizes the FIFA Laws of the Game to form the basis for outdoor soccer. This year, Danielle tasked herself with combining all of the indoor rules (boarded, turf and coed) so we could have one document instead of three. This led to a full review of the indoor rules by the technical committee and in the new year the outdoor rules will be reviewed as well.

This year, the technical committee reviewed and made recommendations on the following:

- all of the outdoor rules
- permits for goalkeepers
- rules for both seasons including: unregistered players, permitting, and team contacts signing the game sheet

I would like to thank Daniel and Danielle who have been great resources for assisting the committee in making some of our decisions as well as all of the committee members for their time. I wish everyone a Merry Christmas and best wishes in the new year.

Jocelyn Trask Chair, Technical Committee
