Re: Permit Player Rules

Dear Team Personnel, Zone Directors and Staff,

The following rules are included in the [SYSI League Operating Rules and Regulations](#) in sections 13.0 Permit Players and 14.0 Game Sheets and have been adapted to a memo with the purpose of bringing more attention and awareness to these rules.

Definition: A permit player is one who is playing temporarily with a team other than the one with which the player is currently affiliated.

Mini Soccer U5 to U9:

U7-U9 mini teams may use the services of a permit player registered with another mini team in a younger age group provided that the permission of the legal guardian and coach of the permit player is obtained.

If teams have less than 6 players (U5/U7) and 7 players (U9) at a game, they can speak to the opposite team’s coach about using/borrowing the opposition’s players for purposes of the game. Example, if two U7 teams, A and B, are scheduled to play, and team A has fewer than 6 players, team A’s coach can ask team B’s coach about using players from team B for that game to even out the roster numbers for the purposes of the game. The rationale behind adopting this permitting rule is that there are no scores and standing at these age groups, and having this rule in place allows for the game to proceed, allows for more children to get playing time, and touches on the ball, as well as, looks out for the health and safety of the team who is short players so that players are able to take appropriate breaks throughout the game. *(Added Jan 18, 2023)*

Youth Soccer U11 – U19:

U11-U19 teams shall not utilize permit players from a higher division, a team from within the same division, or an older age group. Youth teams shall only utilize the services of a permit player registered with another youth team in a lower division or a younger age group while following all other permit player rules and conditions.

U17 City League	U15 City League				
U19 City League	U17 City League				

Note: A City League player may only permit to the Alliance League a total of three (3) times within a season.

Lateral permitting is not allowed:

- Lateral permitting of players between teams within the same division is not allowed except for in the City League where a Zone does not have a team in the lower City League age group (ie: where a Zone has two teams in U13G City but no teams to permit from in U11G, they may laterally permit between their two U13G City League teams for that season).

Permit player residence and affiliation:

- U5-U9 permit players must reside within the zone of the youth team and be a registered player.
- U11-U19 permits must be registered with another team in the same zone.

Coach responsibility:

- It is the responsibility of the team to ensure that all its permit players are eligible to participate in that capacity.
- Permission of the coach of the permit player must be obtained.
- The name of the permit player must appear on the game sheet with a "P" written beside their name.
- Coaches are encouraged to permit and offer exposure and developmental opportunities to a multitude of players and not just one/two with a purpose of winning.

Number of permit players allowed per game:

- **Outdoor season:** A maximum of 5 permit players may be used in any game.
- **Indoor season:** Teams are allowed to use 3 permit players not exceeding the normal maximum number of players given the age/division OR until they can field a full starting lineup plus three, not exceeding 5 permit players, whichever is greater, per game.
- **League Final Matches:** For both outdoor and indoor league playoffs and championship games, permit players will be allowed to fill the roster up to the normal number of players on the pitch during a game plus one (i.e.: 7 players for 6v6, 8 players for 7v7, 10 players for 9v9, and 12 players for 11v11) The players permitting may not play in any other league playoff or championship games.

Number of times a player may permit: There is no limit to the number of games a player may permit to during the regular youth league season within the league they are registered in (ie: Alliance League to Alliance League or City League to City League) .

- Alliance League players are restricted from and may not permit to the City League.
- City League players are allowed to permit to the Alliance League a maximum of three (3) times within a regular season. Any requests above the three would be submitted to the SYSI office by the Alliance team requesting the permit player and shall require special circumstances.
- Provincial Soccer League (PSL) - City League players are restricted from permitting to the PSL; Alliance League players may permit to the PSL; players who are registered solely on a PSL team may not permit to the City or Alliance Leagues; only under-13 players may participate and be registered on both an under-13 Alliance League team and an under-13 PSL team; under-15 and under-17 PSL players are not allowed to also permit or be registered on an SYSI Alliance League or City League team.

Female players permitting to male teams: Girls are allowed to permit to the equivalent boys divisions (under-13 girls Alliance A can permit to under-13 boys Alliance A but cannot permit to under-13 boys Alliance B). All other permit rules still apply.

Interlocked divisions:

- When two divisions (e.g. under-13 Alliance A and under-13 Alliance B) are amalgamated into one league and separate standings are kept, players from lower age/division teams are eligible for permit play with higher age/division teams in the same league only when the two groups are not playing each other (e.g. under-13 Alliance A vs under-13 Alliance A could permit under-13 Alliance B but not when it is under-13 Alliance A vs under-13 Alliance B). All other permit rules still apply.
- When two divisions are amalgamated into one league, players from the lower age/division can use the same permit rules that apply to the higher age/division. (e.g. if under-17 Alliance two is amalgamated with under-15 Alliance A, then the under-15 Alliance A could permit under-17 Alliance B players in games against the under-17 Alliance A. NOTE, this type of permit can only be used in games against the higher age/division. If the under-17 Alliance B and under-15 Alliance A are amalgamated, and it is a game between two under-15 Alliance A teams, then under-17 Alliance B players would not be eligible permits for this game.)

Special Permission: In circumstances where a youth team is unable to access a reasonable number of permit players from within their zone, the zone may request special permission from the SYSI office to use permit players from outside the zone or propose another option for consideration. Such permission must be in writing and be obtained in advance of using permit players from outside the zone. These permit players are governed by the same rules as permit players from within the zone. The SYSI office may request advice from the SYSI Advisory Committee if needed and will inform such committee of any SYSI office decisions made on special requests regarding permitting.

Additional permit rules for teams approved to exceed roster limits: Teams who have been granted approval by SYSI to have additional players on their roster over and above the maximum roster size may not use permit players to fill beyond the maximum number of players initially set by SYSI, see Number of Players section. For example, if the roster size maximum is 12 and the team was approved to carry 14 players, than they can only use permit players when their total number of players available to play and those listed on the game sheet does not exceed 12 players.

Permit Infractions: Fines, overturning of games, and/or discipline will result in the use of ineligible permit players, not listing a “P” next to permit players on the game sheet, or exceeding the number of permit players on a game sheet as per the SYSI game sheet infractions chart outlined below:
