

Sherwood Parkdale Rangers Soccer Club Fast Tracking Player Policy

Purpose:

Whereas the SPRSC receives requests from member players to try out and be considered for teams above the age group for players of the member players' age, this policy establishes the considerations and procedure to deal with any such requests.

Authorization:

No member player shall be selected or approved for the roster of a team more than one (1) age group above the age group for players of the member player's age. Where a member player requests to be considered for the roster of a team one (1) age group above the age group for players of the member player's age, the request shall be considered by SPRSC's Technical Director who shall determine whether to approve the request using the considerations and procedure outlined in the attached document "Fast Tracking & Player Development".

No requests by a member to attend an assessment(s) for a team one (1) age group above the age group for players of the member player's age will be considered unless the request is made in writing to the technical director at least one (1) week in advance of the assessment at issue.
