7. There will be an optional skate once the Head Coach is chosen.

5. The head coach will select the team from the players available, based on the evaluations, as well as past attendance and behaviour history after the Coach's skate. If the coach wishes, the Player Selection Committee can select the team based on the evaluation numbers. The team must be finalized within 24 hours of the coach's skate.

Registration after Evaluations – Player Placement

1. If a player joins SLMHA after the teams have been selected, the player will be placed on the lowest team in the division. The Coaching Director, along with the Coaches of the next higher team in the Division, will be asked to observe the practice(s) to see if this is an appropriate placement for the player.
2. If the player's skill level is above the lowest team, then he/she will practice with the next highest team with the Coaching Director and coaches of the next higher team in the division observing the practice.
3. This process will be repeated until the player is placed on the team that allows the player to play and compete at their skill level.
4. If it is necessary to move a player up to the higher team because of numbers after the new player has joined then consideration will be given to all players that attended the coaches skate for that tier team at the beginning of the season, not just the new player. The Player Selection Committee will have final say in this decision.

Player Selection Criteria

The Player Selection Committee is responsible for set up of Player Evaluators. Evaluators cannot evaluate their own child's Division or any relative's children's division. If there are any discrepancies, the Coaching Director will make the final decision. SLMHA will make all attempts necessary to have 3 Evaluators to evaluate the Players.

Evaluators will choose the top group of players based on an assessment of the entire division player registrations.

One goaltender will be selected by a Goaltender Evaluator. If no adequate Goaltender Evaluator is available, then the Player Evaluators will pick the goaltender. The head coach will have discretion using evaluation numbers.

5. The player selection committee will strive to have one person as the lead for each division during divisional skates and evaluations. Any member who would like to participate as a lead or a helper needs to submit their name to the Coaching Director prior to divisional skates starting.

6. The Player Selection Committee can choose remaining players for the coach for the next scrimmage if Head Coach requests this.

7. There will be an optional skate once the Head Coach is chosen.

8. The Divisional/Evaluation lead for each division is responsible for the selection of equally split teams for the evaluated scrimmages. Coach's involvement will be at discretion of the Player Selection Committee. The Player Selection Committee is available to assist, upon request, the Divisional/Evaluation lead.
9. A goalie is a goalie as long as she/he tried out as a goalie. Special considerations will be given but at the discretion of the coaches.

Player Selection Process:

Players will be divided into two equal teams by the Divisional Lead, in association with the Divisional Coordinator, for weeknight evaluations. This will be age generated with half first-year players and half second year players for each team. Players will be given a jersey number prior to going on ice. The Division Coordinator will write out the list of players and their assigned jersey number. Jerseys will be collected after evaluation on the first night and given back to the correct player on the second night for evaluations.

There will be three evaluated skates for all players at all divisions. If numbers or skill level dictate, players may be asked to not return for the coach's skate.

Head coach of the highest tier team will choose the players/goalies moving onto the coach's skate after the third evaluated skate. This decision will be made based on the evaluation numbers from the three evaluated skates.

5. The head coach will select the team from the players available, based on the evaluations, as well as past attendance and behaviour history after the Coach's skate. If the coach wishes, the Player Selection Committee can select the team based on the evaluation numbers. The team must be finalized within 24 hours of the coach's skate.

6. The team size (number of players) will be determined by the Player Selection Committee, based on registration numbers. First priority will be to split teams equally based on numbers. However, skill level will also be considered when determining the team size (number of players).

7. Once the highest tiered team is selected, the next lower tiered team head coach will be selected. Player Selection Committee will provide this coach with the evaluation numbers from the three evaluated skates for the remaining players/goalies. One more skate will happen with all remaining players/goalies. Then the coaches skate for the next lowest tiered team will happen. The team must be finalized within 24 hours of the coach's skate.

8. If necessary, the next lower tiered team head coach will be selected and all remaining players/goalies will form the third team for the division.

9. Registration may be denied based on past history.

10. Goalies will be expected to show up at all tryouts regardless of rotation.

11. The head coach must notify all players/goalies selected for their team within 24 hours via phone call if possible or via email. This MUST occur with 24 hours of the coach's skate. The head coach must also send their roster to the Division Coordinator within 24 hours.

12. The Divisional Coordinator must receive the final roster from the head coach within 24 hours of the coach's skate. The Divisional Coordinator MUST notify all players who have not been selected for this roster and advise them of their next skate within 24 hours.
