

# Safety Volunteers for LSO and Teams/Groups

**Attendance Coordinator:** A person assigned by the LSO to collect and store attendance records from each 'Attendance Tracker' at every softball activity.

**Attendance Tracker:** a person assigned by a team or group to record the name and phone number of all participants attending any softball activity.

**Distancing Monitor:** a person assigned by a team or group to monitor the physical distancing of their own team's players, coaches, and spectators on and off the field.

**Injury Attendant:** A person (could be a coach or manager or parent) who attends a softball activity and is the only person, besides the coach, that is designated to go onto the field if an injury occurs. Wherever possible this is preferred to be a person with first aid training.

**Sanitizing Champion:** a person assigned by a team or group to ensure sanitization of the facility, shared equipment, and proper participant sanitization during a given softball activity.

**Screeener:** A person assigned by a team or group to ask the designated screening questions of all participants and others attending any softball activity. This person may be the same person as the Attendance Tracker at the discretion of the LSO.
