SOUTH CALGARY RINGETTE

Pre-Game

Before starting a game, there should be a designated timekeeper and a designated scorekeeper. Both people will be in the timekeeper's box prior to the start of the game to set up everything. They will then remain there for the duration of the game.

The timekeeper will be in charge of the score clock. The information that the timekeeper must put up on the score clock is the period that the game is in, the time for each period, goals, penalties, and shots on goal. The timekeeper must also start and stop the clock according to the stops and starts in play during the game.

The scorekeeper will be in charge of the game sheet. This means that they must record all of the scoring and penalty information in the correct spots on the game sheet. All of this information will be provided to the scorekeeper by the referee.

Timekeeper/ Scorekeeper's Check-List

Prior to each game, the timekeeper and scorekeeper should make sure that they have the following items:

- A completed Game Sheet (see check-list below)
- Pens (it is always handy to have an extra pen incase one runs out of ink)
- The penalty abbreviations provided in this manual
- The score clock instructions provided in this manual

Game Sheet Check-List

Prior to each game, the timekeeper and scorekeeper should make sure that the game sheet contains the following:

- All referees and linesmen have provided their referee/linesmen numbers and have signed the game sheet prior to the start of the game
- Each team roster has a signature in the "verified by" box located below the team rosters
- The team names, team rosters, division, date, arena, type of game, and start time are all filled out prior to the start of the game
- Each page of the game sheet must have a copy of the team rosters (if team rosters are printed off on a sticker there must be a sticker on each page of the game sheet).

SOUTH CALGARY RINGETTE

Filling-out the Score Sheet

Each team has sections on the game sheet for scoring and penalties. The Home Team's sections will be on the left side of the score sheet and the Visiting Team's sections will be on the right side of the score sheet. All scoring and penalty information should be filled-out in that team's section.

Scoring

Each team's scoring section has the headings *No.*, *Per.*, *Time*, *SC*, and *Assist*. All of these sections should be filled in by the scorekeeper.

- *No.* refers to the number of goals for that team. This section of the game sheet is already filled in with the numbers 1 through 15 and the scorekeeper does not have to add any information to this section.
- *Per.* refers to the period in the game that the goal is scored
- *Time* refers to the time left in the period in which the goal took place (i.e. the time left on the score clock)
- *SC* refers to the jersey number of the player that scored the goal
- *Assist* refers to the jersey number(s) for the one or two players that assisted on the goal

The referees will provide the scorekeepers with the information regarding which player scored and who they were assisted by. The information regarding the period and the time left in the period can be found by the scorekeeper on the score clock. For this the scorekeeper should write down the exact time left on the score clock.

Penalties

Each team's penalties section includes the headings *Per.*, *No.*, *Serv.*, *Offence*, *Min. Off.*, *Start*, and *On*. All of these sections should be filled in by the scorekeeper.

- *Per.* refers to the period in which the penalty occurred.
- *No.* refers to the jersey number of the player that received the penalty
- *Serv.* refers to the jersey number of the player that served the penalty in the penalty box
- *Offence* refers to why the player received the penalty
- *Min.* refers to the number of minutes that the penalty is for.
- *Off* refers to the time on the score clock that the player got off the ice for the penalty
- *Start* refers to the time on the score clock that the time for the penalty started.

SOUTH CALGARY RINGETTE

- *On* refers to the time on the score clock that the player was allowed to go back on the ice after the penalty. This section should not be filled in by the scorekeeper until after the player is back on the ice as the player may not have to serve the entire length of their penalty if the other team scores a goal.

The referees will provide the scorekeepers with the information regarding which player received the penalty, which player is serving the penalty, why the player received the penalty and how many minutes the penalty is for. The information regarding the period, the time the player got off the ice, when the penalty started and when the player got on the ice can be found by the scorekeeper on the score clock. For these the scorekeeper should write down the exact time on the score clock.

Penalty Abbreviations

Because there is a limited amount of space on a game sheet to write in the type of offence for a penalty, scorekeepers should use the abbreviated form for each type of penalty. Using abbreviations will also come in handy if the referee is providing the scorekeeper with information about several penalties all at once. The following are the abbreviations for each penalty in hockey.

Arena Score Clocks

There are several types of score clocks in Calgary Arenas. The following section includes information pertaining to which arena has which score clock as well as information on how to use each particular score clock.

Score clocks are generally similar; however there are variations between brands on how each clock operates. It is advised that timekeepers read the following information prior to timekeeping at any hockey games.

SCORETEC Score Clock

The arenas that use the SCORETEC score clock are as follows:

- East Calgary Twin Arena- *299 Erinwoods Drive SE*

The following contains information about the SCORETEC score clock. Provided are instructions on how to use the score clock and its many features.

It should be noted that East Calgary Twin Arenas also provides a copy of the following instructions beside their SCORETEC score clock for timekeepers to use.

A diagram of what the key pad of the SCORETEC score clock looks like is also provided below. This allows for timekeepers to get a visual of where the commands provided in these instructions are on this score clock.

SOUTH CALGARY RINGETTE

The following contains information about how to use the NEVCO score clock. Included are instructions for each of its many features as well as a visual of what will display on the screen with each command.

A diagram of what the key pad of the SCORETEC score clock looks like is also provided below. This allows for timekeepers to get a visual of where the commands provided in these instructions are on this score clock.

Turning on the Game Clock

When you first turn on the score clock, a series of stars will scroll by, followed by a description of the clock. You can skip this by entering in the vendor code of the score clock, which is found on the front panel.

After doing this, you will be given the option to start where you left off. If this is selected, it will go back to the score and time the clock was at before it was last switched off.

Select NO for using penalty time out.

Setting the Main Game Time

Press SET, then the minutes you want to set the period to, remembering to separate the minutes and seconds by a colon (:).

Example- the main game time needs to be set to 15 minutes

SET – TIME – 1 – 5 – : – 0 – 0 – YES

This also comes in handy when having to reset the time if the clock happened to be started or stopped early.

Setting the Period

The only time you can set the period is after you set the game time. Once you have entered the time, as was done above, the readout will say, “PERIOD.” Here, you simply press the number of the period and it will then be set. Note- **do not** use SET – PERIOD for this.

SOUTH CALGARY RINGETTE

Setting Goals

There are two ways to set the score:

- 1) Manually setting each goal when it happens
This is as simple as SET- HOME SCORE/ GUEST SCORE - # OF GOALS

Example- the HOME team just scored a goal to go ahead 3-2

SET – HOME SCORE - 3

- 2) Adding a goal to the total each time one is scored
After setting the HOME SCORE and GUEST SCORE to 0, you can add 1 to the score by pressing HOME SCORE or GUEST SCORE. Once this happens, the score will be shown in the readout, followed by a plus sign- this is a prompt asking you how many goals you would like to add on, here 1.

This also comes in handy when a team has scored 10 or more goals, you can't set double-digit scoring using SET – HOME SCORE/ GUEST SCORE

Setting Penalties

Setting penalties works similarly to setting the game time, except that once you finish instead of the read out saying "PERIOD:" it will say "PLAYER." Here, you simply type in the number of the player.

CAUTION- Avoid using the same number for each penalty. If you have two penalties to two different players, and use the same number for both, they will count as two consecutive penalties to one player.

Example- #5 white received 2 minutes for slashing, and white is the home team

SET- HOME PENALTY – 2- : - 0 – 0 – YES - 0 - 5

Remember that all numbers entered for players have to be two digits, so any single-digit player number needs a 0 in front of it- this is why 05 was used above.

Erasing Penalties

To take penalties off, press HOME PENALTY or VISITOR PENALTY until you see the penalty you want to clear. Then PENALTY CLEAR, then YES.

SOUTH CALGARY RINGETTE

If there is only one penalty to the side you want to erase the penalty from, that penalty will be displayed in the readout. If there is more than one penalty to the side you want to erase the penalty from, pressing HOME PENALTY or VISITOR PENALTY will scroll through all of the penalties on that side.

Example- Two penalties against the VISITOR- #11 has 1:32 left, #36 has 0:10 left. #36's penalty is cancelled by the goal.

Press VISITOR PENALTY until you see HP1 36 0:10 in the readout (Home penalty 1, #36, 0:10 left in the penalty). Now press PENALTY CLEAR and when prompted, press Y to confirm that this is the penalty you want to remove.

Editing Penalties

To edit penalty times, choose the penalty you want to edit, then select PENALTY EDIT and modify the time.

Example- HOME #5 has a 5 minute penalty instead of 2 minutes

Press HOME PENALTY until you see HP1 05 2:00 in the readout (Home penalty 1, #5, 2:00 left in the penalty). Now press PENALTY EDIT, press 5 - : - 0 - 0, then YES. This way, you will not need to erase the penalty and start again.

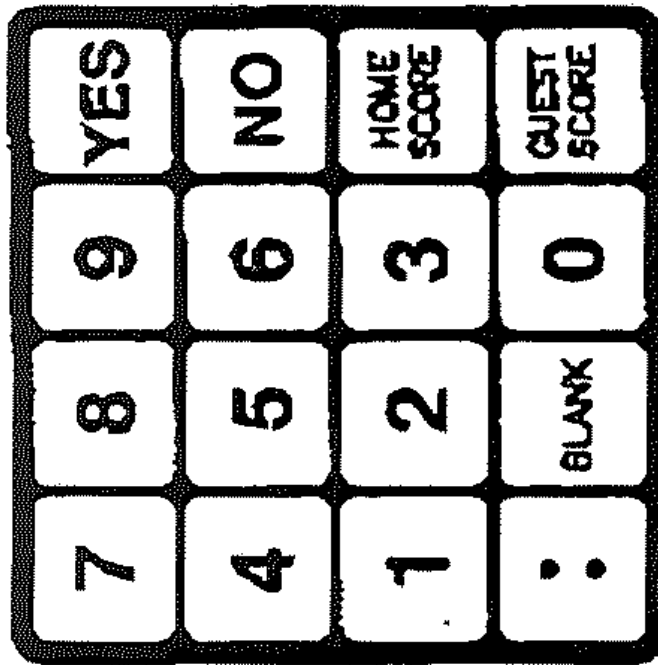

More Than Two Penalties Running at Once

If there are more than two penalties assessed to either the HOME or VISITOR side, the scoreboard knows that only two penalties can run for one team at any given time. So if three penalties are set for the one side, only the first two that were entered will run. Once one of the penalties has expired, it will come off the scoreboard, and the third penalty will then be displayed, and will begin counting down.
