

SPMB MISSION STATEMENT

SPMB promises to teach sportsmanship, responsibility, team play, commitment and fairplay. We are committed to providing a safe and all inclusive environment, affordable costs and equality to all members. We strive to teach players the value of teamwork and that, as a team, a group is stronger than its individual parts. Playing sports should be fun, enjoyable, rewarding and encouraging for youth players. Playing baseball/softball requires not only the commitment of the players, but the commitment of the parent(s) as well.

SPMB executive and board will ensure that baseball/softball remains a fun program for all players at all ages while building self esteem. The program will entail appropriate skills/fundamentals for the kids to learn and offer clinics/camps while opening up a new world of friends and memories. We use baseball/softball to teach life lessons that build stronger and more confident individuals. Our program also brings families and communities together.

SPMB executive and board members/directors promise by our words, actions and attitude, the coaches and managers shall lead by example to promote respect for each other, our players, opponents, parents and game officials. We take pride in the umpires we have in our association and do not stand for any verbal abuse and/or disrespect towards them.

“Each swing, each pitch , is a step closer to greatness” – unknown -
