LONG TERM PLAYER DEVELOPMENT PRINCIPLES – APPROVED NOVEMBER 20, 2023

INTRODUCTION

The Swift Current Soccer Association (SCSA) is committed to giving all players the best chance of success in soccer by tailoring training, competition, and coaching to their needs at the appropriate stage of development.

Long Term Player Development (LTPD) is a model of athlete development that parallels what doctors and psychologists have long used to better understand human development: as a series of distinct stages, which takes us from infancy through to adulthood. A person's abilities, behaviors and emotions, as well as their understanding of the world around them, varies from stage to stage.

Similarly, experts in sport science have identified seven stages of development — each with its own physical and psychological characteristics — that form the basis for LTPD. When young soccer players are able to train and compete in an environment that's appropriate to their stage of development, they not only perform at their best, they also have more fun.

In other words, LTPD is designed to give players an optimal soccer experience at every stage by putting *their* needs front and center.

WHY LTPD?

We don't expect kids to compete in spelling bees without first teaching them their ABCs. When activities and expectations don't match with a child's developmental stage, this can set them up for failure.

The same is true when young children are thrust into a soccer environment that over-emphasizes winning at the expense of developing skills and having fun. The negative consequences can last a lifetime: Some kids develop bad habits and poor skills and can become discouraged. Many don't achieve their performance potential. Others end up leaving the sport altogether because they don't enjoy the game.

LTPD gives all players the best chance of success in soccer by tailoring training, competition and coaching to their needs at the appropriate stage of development.

When children learn the right skills at the right time —supported by a caring soccer community of parents, coaches, officials and volunteers —they become more confident in their abilities and have a lot more fun. This means more of them will grow into healthy, active adults with a lifelong love of the game.

STAGES

The first three stages, which guide development up to age 12, are built around small-sided games. There are no league standings for these age groups; the focus is on learning and fun.

1. **Active Start:** U4/U6 M/F
2. **Fundamentals:** U6/U8 F, U6/U10 M
3. **Learning to Train:** U8/U11 F, U9/U12 M

As children move into adolescence, official league standings are introduced and the game becomes more competitive, with more emphasis on strategy and tactics. This includes larger-sided games and year-round play.

4. **Training to Train:** U11/U15 F, U12/U15 M
5. **Training to Complete:** U15/U19 F, U16/U20 M
6. **Training to Win:** U18+ F, U19+ M
