**Coaches Protocols:**

- Record and file attendance records for each ice session (rosters will be provided to each team for easy recording; players, coaches and parent helpers all need to be recorded) this information is strictly confidential and must remain with the coach.
- Confirm with players that each has their own water bottle, labelled with their name.
- Designate an area for water bottles on the bench making sure there is proper physical distancing when taking water breaks. Consider breaking up the team into 2 groups to make this process easier.
- You will be provided with hand sanitizer for player use with in the dressing room
- You will also be provided with a kit with PPE supplies (Disposable face masks, hand sanitizer, tissue, gloves) this kit must be on the bench at all times (Practices and games) in order to safely deal with player emergencies or situations. Each coach will be responsible for the kit for the season, please let an executive member know if any of your supplies need to be restocked.
- Coaches are required to wear masks in the dressing rooms as well on the players bench where social distancing is not possible.
- Players need to be out of the arena 15 minutes after ice time, please monitor the time and make sure players are adhering to this time line. Teams may enter the building 15 minutes prior to their scheduled ice time.
- 2 dressing rooms will be provided for each team to adhere to physical distancing guidelines, please make sure players spread out between the rooms provided.
- Be familiar with facility protocols and association protocols copies will be provided to you.

Organization will be the key to a successful 2020/21 season, please plan accordingly. Have a clear plan for all practices before arriving to the arena. Please make sure that plan is well communicated between all coaches and parent helpers of your division.

Thank you for all for you dedication and time to help make this season the best that it can be!

THMA Executives.
