

Our Beginnings

In 2006, LeeAnn Lesniewski & Erin Hogan started coaching a very special U13 girls club basketball team which ultimately resulted in the formation of Vision Basketball Academy (VBA). This inaugural VBA U13 team stayed together for 5 years and became recognized as one of the top teams in the city of Calgary as well as Alberta. When most of these players went to college/university, it was time to begin the cycle again. In the spring of 2012, VBA expanded their club to include another U13 team as well as a U15 team. From there, several Vision Basketball Academy teams have operated over the years with numerous players going on to play post-secondary basketball.

Our Vision

Vision Basketball Academy (VBA) is a Basketball Program offering great opportunities and experiences to young basketball players. Our motto: "Vision Ignites the Passion that Inspires Excellence" clearly represents what we are all about.

At VBA we believe that basketball is a tremendous vehicle throughout life, and while we most definitely challenge and develop their basketball skill level, we also strive to ignite a passion for basketball in these young athletes to inspire a goal of achieving excellence in all aspects of life, both on and off of the basketball court.

VBA Club Teams are coached by top level basketball coaches. All VBA coaches have a background and experience in the game of basketball that you won't find anywhere else. Our philosophy is to hire coaches who are dedicated to their athletes and are here to promote the importance of work ethic, self-discipline, team work and above all else respect.

Respect between coach and player is an integral part of developing a successful basketball team. Coaches respect their athletes, athletes their coaches and both are expected to respect all other components of the game at all times, including officials, parents and opponents.

Our goal at VBA is that when a player finishes a season with a VBA Club Basketball team they will leave loving the game of basketball more than when they started, they will leave with a higher skill level, they will leave with new friends and an important factor, they will leave having had a positive experience with a coach who is an important role model in their life.
