Philip Jevtovic—Style of Play – from Good to Great

Canada Basketball SMNT

Coach Phil Jevtovic's presentation was primarily for the more advanced coach in a more advanced program—college, university and even the professional ranks.

Although there is vital information that would assist many programs at many levels, it is more geared towards higher level teams and programs.

Concluding Notes

Tracking provides objective data for use by coaches and players—numbers don't lie.

Whenever possible, coaches are encouraged to track team and individual performances—detailed or not.

Tracking data identifies Gaps and then allows the team or individuals to fill the Gaps.
