

2020-2021 Equipment report

Waterloo Ringette equipment saw very little activity this year. Lockdowns, social distancing, testing resulted in the bare necessities needed to be offered to coaches to do their skills. The many courageous and generous coaches who gave valuable time to get the athletes on the ice adapted to changing protocols on a whim. Thanks, coaches, for your selfless efforts. Gone this year was come try ringette and the equipment loan program for first year members. This is usually a great time for Waterloo Ringette to get young children in the sport. Some of our ringette families did donate equipment used equipment for future use. Thank you all. Looking ahead to 2021-2022 we hope to bring back the ringette buzz with and more new young athletes to our beloved sport as well as seasoned veterans. Take care all and see you in the fall.
