

PERSONAL CONCUSSION RECORD FOR PLAYERS

It is important to keep a record of specific information pertaining to a player's suspected or diagnosed concussion. This information provides an overall picture of what the player is experiencing/has experienced and the steps taken when managing and treating their concussion symptoms. The following document is not a legal medical document and as such should be used solely as a tool for players and parents/caregivers to use and refer to throughout the Return-to-School/Work and Return-to-Sport period and in the future. Using the Personal Concussion Record for Players is highly recommended and a simple method to ensure that the same information is provided to the player's doctor, coaches, trainers, teachers and other support staff.
