Ramp Team App

Our coaches and the association will communicate primarily through the Ramp Team App. The Ramp Team App keeps managers, coaches, parents, athletes and fans connected and informed, stacked with features to improve user experience, manage your team, schedule and communicate.

To become part of our Ramp communication system you will need to do the following:

1) Download the Ramp Team app on your mobile device. Just search "Ramp Team" on the Apple App Store or Google Play for Android Apps

2) Create an account and password using the email address you registered your child with for our programs

3) The club will add your account (using that email) to your child's team. Additional email addresses can be added upon request. If you recorded a second parent on your child's registration, they too will receive RAMP Team access.

4) Now you can interact with others on the team.

This app syncs effortlessly with your RAMP Website, making it ready to go at the push of a button, eliminating the need for double entry.

- Communication
  RSVP for Games, Practices & Events with optional Push Notifications. Email directly from your phone.
- Schedule Updates
  Make practice and game changes on the fly. Automatically notifies the team and updates the website.
- Calendar Syncing.
