

Whitecourt Minor Ball Underage Policy

In instances where a parent wishes to register their child in an division above their birth year category certain guidelines must be met and adhered to.

House League/A Division:

1. During evaluation night for the selected division the player must attend and complete evaluations for the desired division. WMB evaluators will assess the player based on ability, safety and projected development within the selected division. WMB will then approve or deny the player for play in the selected division

AA Division:

1. Player must tryout during scheduled team tryouts. They must evaluate in the top 50% of the players to be selected for the team if there are more than the maximum total team number trying out. For example, if the maximum team size is to be 12, 16 kids are trying out, the underage player must score in the top 6 players to make the team. If there are equal or less than the total team maximum trying out WMB evaluators will assess the player based on ability, safety and projected development within the selected division and will then approve or deny the player for play in the selected division.
