8 TIE BREAKERS

3.08.01 To determine team standings in the event of a tie, the following criteria shall be used by all leagues or associations playing under the jurisdiction of Hockey Saskatchewan.

a) Two Teams Tied

If two teams are tied:

- i) Best win record in games played between tied teams.
- ii) If still tied, the team with the best win record.
- iii) If the two teams are still tied after i) and ii) have been applied, then the team with the best goal average gains the higher position. The goal average of a team is to be determined in the following manner:

Total number of goals for divided by the total number of goals for and against.

NOTE: All games are included.

NOTE: A maximum of seven (7) goal difference per game will be used in the calculation of the game ratio. This will be calculated from the actual "goals for" of the losing team in the particular game.

Example: Goals For = 10 Goals Against = 4 Goals

Percentage:

$$\frac{\text{Total Goals For}}{(\text{Total Goals for} + \text{Total Goals Against})} = \frac{10}{(10 + 4)} = \frac{10}{14} = .714$$

iv) If the two teams are still tied after i), ii) and iii) have been applied, the team with the least number of minutes in penalties throughout **all** games, gains the higher position.

v) If the two teams are still tied after i), ii), iii) and iv) have been applied,

then the team which scored the first goal in the game between the tied teams gains the higher position.

vi) If the two teams are still tied after i), ii), iii), iv) and v) have been applied, a single coin toss will determine which team gains the higher position.

b) Three or More Teams Tied

NOTE: The three-team tiebreaker is used to determine the seeding of the three tied teams. If any step in the tiebreaker only seeds one team, that team assumes that position. The Three-team tiebreaker will continue to determine the seeding of the two remaining teams. At no time will teams using this formula go back to the two-team tiebreaker.

If three teams or more are tied, the point record established in the games **among the tied teams only** will be used as the first tie breaking formula in deciding which team(s) shall advance, provided they played an equal number of games against one another.

i) The team with the most wins (among tied teams), in ALL games, would gain the highest position.

ii) If teams are still tied after i) has been applied then the team with the best goal average gains the highest position.

NOTE: All games are included.

NOTE: A maximum of seven (7) goal difference per game will be used in the calculation of the game ratio. This will be calculated from the actual "goals for" of the losing team in the particular game.

Example: For = 10 Against = 4 Goals

Percentage:

$$\frac{\text{Total Goals For } 10}{(\text{Total Goals For} + \text{Total Goals against})} = \frac{10}{(10 + 4)} = .714$$

NOTE: The highest percentage gains the highest position(s). The exercise of ii) establishes the team or teams with the highest position(s) by percentage. These team(s) will advance. If there are still teams tied,

they go to the next step. They do not go back to the "Two Team Tiebreaker".

Example:

- (1) Team A – .714 = 1 seed – Advances
Team B – .500 = 3 seed – Does Not Advance
Team C – .650 = Advances
 - (2) Team A – .714 = 1 seed
Team B – .500 = Still Tied with Team C – go to next step iii)
Team C – .500 = Still Tied with Team B – go to next step iii)

SUSPENSIONS

The Hockey Saskatchewan Officer in Charge of Discipline has the ability to issue discipline for any action on and off the ice by any Hockey Saskatchewan registered participant that is not covered by Hockey Canada/Hockey Saskatchewan playing rules. Game sheets may only be altered with the approval of the Officer in Charge of Discipline.

4.09.01

The following is a guideline for the suspension of team members. Leagues may extend the basic suspension(s), however they shall not reduce the Hockey Saskatchewan minimum guideline.

Examples:

- i) The suspension for a Match Penalty for kicking (Regulation 4.09.02 e)) is a minimum of three (3) games. A League may choose to make the suspension more severe by choosing any number of games over three (3), however, they cannot reduce the suspension to less than three (3) games.
- ii) The minimum suspension for a fight and a game misconduct in the last ten (10) minutes of a game is the next scheduled League, Tournament or Provincial Playoff game. A League may impose additional games for the actual fight or accumulation of fighting majors.

These guidelines are to be applied to all hockey played in the Senior Division of Hockey Saskatchewan. The game, in which any of the penalties assessed fall under Hockey Saskatchewan minimum suspension guidelines, shall not be counted in the length of the suspension.

Example:

A player receives a two (2) game suspension for a Gross Misconduct (Regulation 4.09.02 d)) they received in the first period of a game. The game he received the Gross Misconduct in does not count in the length of the suspension; they must sit their next two (2) scheduled League, Tournament or Provincial Playoff games.

It is the responsibility of each team manager and/or coach to ensure the team member(s) sit out their appropriate suspensions. When in doubt as to the relevant suspension, contact the Officer in Charge of Discipline. The Officer in Charge of Discipline may impose a time limit on a suspension under special circumstances.

Examples:

i) If a player is removed from a game but the offence is not written down on the game sheet, it is the responsibility of the team manager and/or the coach to discover what the offence was that removed the player from the game. If it was for an offence that calls for a suspension, ensure the player sits out the minimum guideline outlined in this handbook and make every effort possible to contact the League or Hockey Saskatchewan Officer in Charge of Discipline to find out the exact length of the suspension.

ii) Each team manager and/or coach cannot assume that if they do not hear from their League or Hockey Saskatchewan regarding a suspension that the suspension of a player was not warranted. Again, it is the team manager and/or coach's responsibility to discover the suspension and ensure the player sits out the appropriate length of games.

iii) The Hockey Saskatchewan Officer in Charge of Discipline has the option to impose a time limit on a suspension in special circumstances. For example; a player receives a Match Penalty for Checking From Behind and the player who was hit sustains an injury that prohibits him from playing the game for two (2) months. The Officer in Charge of Discipline has the option of simply applying a specific number of games suspension or a time suspension (ie. two (2) months).

The following suspension guidelines will be applied to all suspensions that involve a length of "time"; The Actual Playing Season is October 1st to March 31st.

Example:

A team official receives a six (6) month suspension for a 11.5 d) Match Penalty for Abuse of an Official on February 1st, 2009. They will be suspended until January 31st, 2010 of the following season (February, March, October, November and December of 2009 along with January of 2010). The suspension is applied to months where actual hockey is being played.

Players receiving a game misconduct under this rule during their last game of the season must serve the suspension in their first league or sanctioned tournament game in the next season.

ii) Any Gross Misconduct in the last ten (10) minutes of a game receives an extra Game Suspension in addition to the suspension for the Gross Misconduct.

iii) Any Match Penalty in the last ten (10) minutes of a game receives an extra Game Suspension in addition to the suspension for the Match Penalty.

4.09.03 Application Guidelines of Suspensions

a) Suspensions by Hockey Saskatchewan of any registered referee, player, coach or team official may include a suspension that will not allow such suspended person to participate in the game of hockey in any capacity. The following guidelines apply;

i) the suspension from all aspects of hockey would apply to all suspensions issued for breach of the Hockey Saskatchewan Bylaws or Regulations, as well as all suspensions issued under Hockey Canada/ Hockey Saskatchewan Playing Rule 2.2; 2.2 c); 11.5 a), b), c), d); and 11.3.

Example:

If a player has received a six (6) month suspension for a Rule 11.5 d) infraction on December 15, 2008, he would be suspended until December 15, 2009. He would be eligible to practice with his team for the remainder of the 2008/09 season and try out for a team in the fall of 2009, however, he would not be able to play in any type of game or be on the player's bench in any capacity until his suspension is served.

ii) unless specified otherwise, suspensions resulting from violation of Hockey Canada/Hockey Saskatchewan playing rules, would only suspend the referee, player, or team official from participating in the game of hockey in the capacity at which he/she received their suspension.

iii) unless specified otherwise, suspensions issued by the Officiating Discipline Committee would only suspend the official from participating in the game of hockey in the capacity of an on-ice or off-ice official.

Examples:

i) A Senior player receives a two (2) game suspension from an infraction he received playing Senior Hockey. He also coaches his son's U11 team. He can participate as a registered team official coaching his son's U11 team while he is serving his Senior Hockey player suspension.

ii) A Senior player receives a Game Misconduct in the last ten (10) minutes of his game. He is suspended for his next game which happens to be a league game six (6) days away. In the meantime, as a registered referee with Hockey Saskatchewan, he is scheduled to referee one (1) game and serve as a linesman in two (2) games prior to his team's next game. He was suspended as a player and therefore can be an official.

b) While a player or team official is serving their suspension, they may not participate with that team in any other aspect.

c) A suspended player cannot be present on the players bench.

d) A suspended team official cannot be present in his/her teams dressing room prior to, during, or following the game(s) they are suspended from or be on the players bench. Team officials who violate this will be dealt with by the Officer in Charge of Discipline.

Example:

A Senior hockey coach receives a one (1) game suspension. While serving that suspension the coach cannot enter his team's dressing room prior, during or following the game he is suspended from. If he does, he can be reported to the Hockey Saskatchewan Officer in Charge of Discipline for further disciplinary action. The coach also cannot have any contact with the team's bench or team officials on the bench while serving the suspension. If they are using hand signals, verbal signs, walkie-talkies, cell phones or any communicative device or action in any fashion with the bench or dressing room, they can be reported to the Hockey Saskatchewan Officer in Charge of Discipline for further disciplinary action.

e) A player/team official is suspended until the suspension is served with the team where the infraction occurred (certified, carded or affiliate team). If the team where the infraction occurred has played its last game, then the suspension may be completed

with the other team. The player suspension must be listed on game sheets. The player/team official shall not be included as one of the maximum number of players.

Examples:

i) A Senior player receives a match penalty and a three (3) game suspension while playing with his Senior team. He cannot play with the Senior AAA team he is affiliated with until he has served the three (3) game suspension.

ii) A Senior player receives a match penalty and a three (3) game suspension while playing with the Senior AAA team he is affiliated with. He cannot play any games with either his Senior team or the Senior AAA team until he serves the three (3) games suspension with the Senior AAA. It is the Senior AAA team's games that count against the suspension, not the Senior team's games as he was playing with the Senior AAA team at the time of the infraction.

iii) A Senior player receives a one (1) game suspension from an infraction during the last game of the season. The Senior AAA team he is affiliated with has a season ending tournament that he intended on playing in. He must serve the suspension during the Senior AAA team's first game of the tournament.

iv) A Senior player is registered on his home town team for League play and a neighbouring town for Provincial Playoffs as his home town team did not enter Provincials. During his League team's last League playoff game he receives a five (5) minute major and a game misconduct for CFB. If the Provincial team he is registered on is still in Provincial play, the one (1) game suspension can be served with the Provincial team since his League team has completed its season. If the five (5) minute major and game misconduct for CFB had occurred in his League team's first playoff game and his next game was with the Provincial team, he could not play with the Provincial team until the suspension is served with the League team.

f) Suspensions may only be served in regular scheduled league games, Hockey Saskatchewan playoff games or league playoff games and sanctioned tournaments where entry or scheduling is made prior to suspension.

Example:

A Senior player receives a three (3) game suspension from an infraction in a game held on a Sunday afternoon. The team does not have any scheduled games for ten (10) days and therefore the Manager enters the team in a tournament the following weekend. The suspended player cannot participate

in the tournament and the games will not count against the suspension as the booking of the tournament was made after the game in which the suspendible infraction took place was held.

g) Suspensions cannot be served in Exhibition, Cancelled or Forfeited Games and suspended players cannot play in exhibition games.

Example:

A Senior player receives a one (1) game suspension from an infraction in an exhibition game on a Monday evening. The team has an exhibition game Wednesday evening and a League game Friday evening. He cannot play in the Wednesday exhibition game and that game does not count against the suspension. He must also sit out the Friday League game which will count against his suspension.

h) Suspensions for violations of the Hockey Canada/Hockey Saskatchewan rules and regulations must be served in the next game or games the player/team official participates in.

i) Suspension for violation of league rules (ie: accumulation of penalty minutes; misconducts; game misconducts; fighting majors; CFB's; HC's; etc) may be implemented at the League's discretion.

Example:

A Senior Hockey League has a League Regulation which states that if a player receives a second fighting major during League play, they would receive a two (2) game suspension from League play. As this is a League Regulation and not a Hockey Saskatchewan Regulation, it is applied to League play only. Therefore, this player sits out two (2) League games and can participate in Hockey Saskatchewan sanctioned Tournaments, Exhibition games or Provincial Playoff games. In the event it is the last League game of the year, the League has the discretion to apply the two (2) game suspension during the following year or stipulate it is to be served during the team's next two (2) Hockey Saskatchewan sanctioned games during the season.

j) Any suspension imposed upon any player, coach or team official by the officials of any League or Association registered with Hockey Saskatchewan shall be given full recognition by Hockey Saskatchewan.

4.09.04 All registered leagues under Hockey Saskatchewan must submit to the General Manager a copy of all correspondence involving suspensions by that league. All leagues must abide by the minimum suspensions as set out in 4.09.02.

iii) Tournament Committees may decide the length of games and overtime procedure.

d) No sanctioned tournament shall accept entries from any team which is not a registered member of a Hockey Canada Branch. Any tournament Committee or association sanctioning tournaments and not following Hockey Canada/Hockey Saskatchewan regulations may have sanctioning privileges suspended for one year or more.

NOTE: Every player competing in a sanctioned tournament must be registered or affiliated with that team. Teams must be able to produce an approved roster from the Hockey Canada Registry which has been approved by the Hockey Saskatchewan General Manager.

e) A team whose entry has been accepted into a sanctioned tournament must use only those players who are not under suspension by their league, association or Hockey Saskatchewan and have been registered for play with that team during the regular season according to the rules of the Branch in which it has been playing. Any team not

complying with this regulation shall be subject to disciplinary action.

- f) All games in a sanctioned tournament shall be officiated by registered officials of Hockey Saskatchewan. Officials who officiate in non-sanctioned tournaments may be suspended.
- g) Hockey Saskatchewan Provincial Playoffs shall have preference over tournament play.
- h) Should any team withdraw from a sanctioned tournament after its entry has been accepted, the team shall be reported to Hockey Saskatchewan for disciplinary action if deemed necessary.
- i) The Tournament Discipline Committee shall have the right to impose any suspensions covering the balance of the tournament. All penalties involving suspensions must be reported by the Tournament Committee to the Hockey Saskatchewan Officer in Charge of Discipline.
- j) Copies of all tournament game sheets are to be sent to the Hockey Saskatchewan General Manager, along with incidents that have not been dealt with by the Tournament Committee. Failure to comply with this regulation within 72 hours could result in cancellation of future tournament sanctions. Tournament Committees not submitting all game sheets shall be assessed a penalty of \$100.00.
- k) Any team, player, coach or manager of a registered team taking part in a non-sanctioned tournament may be suspended for one year.

6.08.02 The Champion of the Saskatchewan U18 AAA League shall be the Hockey Saskatchewan Representative for the Telus Cup Competition. The Champion of the Saskatchewan Female U18 AAA League shall be the Hockey Saskatchewan Representative for the Esso Cup Competition. Teams entering any competition leading to a National or Regional Championship must conform to the Hockey Canada Regulations.

SUSPENSIONS

The Hockey Saskatchewan Officer in Charge of Discipline has the ability to issue discipline for any action on and off the ice by any Hockey Saskatchewan registered participant that is not covered by Hockey Canada/Hockey Saskatchewan playing rules. Game sheets may only be altered with the approval of the Officer in Charge of Discipline.

6.09.01

The following is a guideline for the suspension of team members. Leagues may extend the basic suspension(s), however they shall not reduce the Hockey Saskatchewan minimum guideline.

Examples:

- i) The suspension for a Match Penalty for kicking (Regulation 6.09.02 c)) is a minimum of three (3) games. A League may choose to make the suspension more severe by choosing any number of games over three (3), however, they cannot reduce the suspension to less than three (3) games.
- ii) The minimum suspension for a fight and a game misconduct in the last ten (10) minutes of a game is the next 2 scheduled League, Tournament or Provincial Playoff games. A League may impose additional games for the actual fight or accumulation of fighting majors.

These guidelines are to be applied to all hockey played in the Minor and Female Divisions of Hockey Saskatchewan. The game, in which any of the penalties assessed fall under Hockey Saskatchewan minimum suspension guidelines, shall not be counted in the length

of the suspension.

Example:

A player receives a two (2) game suspension for a Gross Misconduct (Regulation 6.09.02 b)) they received in the first period of a game. The game he received the Gross Misconduct in does not count in the length of the suspension; they must sit their next two (2) scheduled League, Tournament or Provincial Playoff games.

It is the responsibility of each team manager and/or coach to ensure the team member(s) sit out their appropriate suspensions. When in doubt as to the relevant suspension, contact the Officer in Charge of Discipline. The Officer in Charge of Discipline may impose a time limit on a suspension under special circumstances.

Examples:

- i) If a player is removed from a game but the offence is not written down on the game sheet, it is the responsibility of the team manager and/or the coach to discover what the offence was that removed the player from the game. If it was for an offence that calls for a suspension, ensure the player sits out the minimum guideline outlined in this handbook and make every effort possible to contact the League or Hockey Saskatchewan Officer in Charge of Discipline to find out the exact length of the suspension.
- ii) Each team manager and/or coach cannot assume that if they do not hear from their League or Hockey Saskatchewan regarding a suspension that the suspension of a player was not warranted. Again, it is the team manager and/or coach's responsibility to discover the suspension and ensure the player sits out the appropriate length of games.
- iii) A player receives a Match Penalty for Checking From Behind and the player who was hit sustains an injury that prohibits him from playing the game for two (2) months. The Officer in Charge of Discipline has the option of simply applying a specific number of games suspension or a time suspension (ie. two (2) months).

The following suspension guidelines will be applied to all suspensions that involve a length of "time"; The Actual Playing Season is October 1st to March 31st.

Example:

A team official receives a six (6) month suspension for a 11.5 d) Match Penalty for Abuse of an Official on February 1st, 2009. They will be

suspended until January 31st, 2010 (February, March, October, November and December of 2009 along with January of 2010). The suspension is applied to months where actual hockey is being played.

g) Game Misconduct

In all hockey (with the exception of Junior A), any player or team official who is assessed a Game Misconduct penalty in the last ten (10) minutes of regular time, at any time in overtime, or after the conclusion of the game and prior to the player or team official entering the dressing room, shall automatically be suspended for the next regular scheduled league, playoff, Hockey Saskatchewan Provincial Playoff or sanctioned tournament game. Players receiving a game misconduct under this rule during their last game of the season must serve the suspension in their first league or sanctioned tournament game in the next season.

Any Gross Misconduct or Match penalty in the last ten (10) minutes of a game receives an extra Game Suspension in addition to the suspension for the Gross Misconduct or Match penalty.

Examples:

i) A minor player receives a Game Misconduct for a two (2) minute Checking From Behind with eight (8) minutes remaining in the game. The player must sit out their next regular scheduled League, Tournament or Provincial Playoff game.

ii) A Female player receives a five (5) minute major for Checking to the Head with six (6) minutes remaining in the game. They receive the following:

- Minimum of one (1) game for the CTH (Regulation 6.09.02 c)).
- One (1) game for receiving the GM in the last ten (10) minutes.
- Total suspension is a minimum of two (2) games.

iii) A player receives a 11.1 Game Misconduct with four (4) minutes remaining in a game which was tied at the end of regulation time and was decided thirteen (13) minutes into the second overtime period. They receive the following:

- One (1) game for a GM in the last ten (10) minutes (overtime does not eliminate this!).
- Two (2) games for the 11.1 GM offence (regulation 6.09.02 b)).
- Total suspension is a minimum of Three (3) games.

iv) A Female player receives a Game Ejection with nine (9) minutes remaining in the game for a third stick infraction. There is no automatic suspension as a Game Ejection is not equal to a Game Misconduct.

v) A Minor player receives a Misconduct in the first period and then a Misconduct at the beginning of the third period. As a result of receiving a

second misconduct in the same game they automatically receive a Game Misconduct. They receive the following:

- Two (2) game suspension (regulation 6.09.02 b))

h) Multiple Game Misconducts

Player or Team Official who receives multiple game misconducts at any time during a game.

One (1) game for each game Misconduct over one (1)

Examples:

i) A Minor player receives the following penalties with six (6) minutes remaining in the game:

- Two (2) minutes for CFB and Game Misconduct
- Five (5) minutes for Fighting and Game Misconduct
- Gross Misconduct for taking off helmet

The player receives the following suspension:

- One (1) game for CFB GM in the last ten (10) minutes
- One (1) game for Fight GM in the last ten (10) minutes
- One (1) game for Fight Major
- Three (3) games for the Gross Misconduct (2 + 1)

i) Unsanctioned Event Participation

Penalties to be imposed by the Officer in charge of Discipline

6.09.03 Application Guidelines of Suspensions

a) Suspensions by Hockey Saskatchewan of any registered referee, player, coach or team official may include a suspension that will not allow such suspended person to participate in the game of hockey in any capacity. The following guidelines apply:

(i) the suspension from all aspects of hockey would apply to all suspensions issued for breach of the Hockey Saskatchewan Bylaws or Regulations, as well as all suspensions issued under Hockey Canada/Hockey Saskatchewan Playing Rule 2.2; 2.2 c); 11.5 a), b), c), d); and 11.3.

Example:

If a player has received a six (6) month suspension for a Rule 11.5 d) infraction on December 15, 2008, he would be suspended until December 15, 2009. He would be eligible to practice with his team for the remainder of the 2008/09 season and try out for a team in the fall of 2009, however, he would not be able to play in any type of game or be on the player's bench in any capacity until his suspension is served.

(ii) unless specified otherwise, suspensions resulting from violation of Hockey Canada/Hockey Saskatchewan playing rules, would only suspend the referee, player, or team official from participating in the game of hockey in the capacity at which he/she received their suspension.

(iii) unless specified otherwise, suspensions issued by the Officiating Discipline Committee would only suspend the official from participating in the game of hockey in the capacity of an on-ice or off-ice official.

Example:

A Female U18 player receives a Game Misconduct in the last ten (10) minutes of her game. She is suspended for her next game which

happens to be a tournament game six (6) days away. In the meantime, as a registered referee with Hockey Saskatchewan, she is scheduled to referee one (1) game and serve as a linesman in two (2) games prior to her team's next game. She was suspended as a player and therefore can be an official.

b) While a player or team official is serving their suspension, they may not participate with that team in any other aspect.

c) A suspended player cannot be present on the player's bench.

d) A suspended team official cannot be present in his/her teams dressing room prior to, during, or following the game(s) they are suspended from or be on the players bench. Team officials who violate this will be dealt with by the Hockey Saskatchewan Officer in Charge of Discipline.

Example:

A Minor hockey coach receives a one (1) game suspension. While serving that suspension, the coach cannot enter his team's dressing room prior, during or following the game he is suspended from. If he does, he can be reported to the Hockey Saskatchewan Officer in Charge of Discipline for further disciplinary action. The coach also cannot have any contact with the team's bench or team officials on the bench while serving the suspension. If they are using hand signals, verbal signs, walkie-talkies, cell phones or any communicative device or action in any fashion with the bench or dressing room, they can be reported to the Hockey Saskatchewan Officer in Charge of Discipline for further disciplinary action.

e) A player/team official is suspended until the suspension is served with the team where the infraction occurred (certified, carded or affiliate team). If the team where the infraction occurred has played its last game, then the suspension may be completed with the other team. The player suspension must be listed on game sheets. The player/team official shall not be included as one of the maximum number of players.

Examples:

i) A U15 player receives a match penalty and a three (3) game suspension while playing with his U15 team. He cannot play with the U18 team he is affiliated with until he has served the three (3) game suspension.

ii) A U15 player receives a match penalty and a three (3) game suspension while playing with the U18 team he is affiliated with. He cannot play any games with either his U15 team or the U18 team until he serves the three (3) game suspension with the U18 team. It is the U18 team's games that count against the suspension, not the U15 team's games as he was playing with the U18 team at the time of the infraction.

iii) A U18 player playing as an affiliate with a Junior team receives a fighting major in the last ten minutes of the Junior game. He is not suspended from his next game as the Game Misconduct in the last ten (10) minutes of Regulation does not apply in Junior hockey which is the division he was playing with at the time.

iv) A U13 player receives a one (1) game suspension for an infraction during the last game of the season. The U15 team he is affiliated with has a season ending tournament that he intended on playing in. He must serve the suspension during the U15 team's first game of the tournament.

v) A U18 player is registered on his home town team for League play and a neighboring town for Provincial Playoffs as his home town team did not enter Provincials. During his League team's last League playoff game he receives a two (2) minute CFB in the last ten (10) minutes of the game. The team has entered a season ending tournament which begins in three weeks time. In the meantime the Provincial team he is registered with has advanced to the Provincial final. He cannot participate with the Provincial team as he has to serve the one (1) game suspension with his League team at the season ending tournament. A player cannot play with anyone until he has served the suspension with the team he committed the infraction with. If his League team had not entered the tournament and was finished for the season, he could have simply sat out the first game of the Provincial final to serve the suspension.

f) Suspensions may only be served in regular scheduled league games, Hockey Saskatchewan playoff games or league playoff games and sanctioned tournaments where entry or scheduling is made prior to the suspension.

Example:

A U13 player receives a three (3) game suspension from an infraction in a game held on a Sunday afternoon. The team does not have any scheduled games for ten (10) days and therefore the Manager enters the team in a tournament on the Monday following the Sunday game that will take place during the upcoming Saturday. The team is scheduled to

play three (3) games in the tournament on the Saturday. The suspended player cannot participate in the tournament and the games will not count against the suspension as the entry into the tournament was made after the game in which the suspendible infraction took place was held.

g) Suspensions cannot be served in Exhibition, Cancelled or Forfeited Games and suspended players cannot play in exhibition games.

Example:

A U15 Female player receives a one (1) game suspension from an infraction in an exhibition game on a Monday evening. The team has an exhibition game Wednesday evening and a League game Friday evening. She cannot play in the Wednesday exhibition game and that game does not count against the suspension. She must also sit out the Friday League game which will count against her suspension.

h) Suspensions for violations of the Hockey Canada/Hockey Saskatchewan rules and regulations must be served in the next game or games the player/team official participates in.

i) Suspension for violation of league rules (ie: accumulation of penalty minutes; misconducts; game misconducts; fighting majors; CFB's; HC's; etc) may be implemented at the Leagues discretion.

Example:

A Minor Hockey League has a League Regulation which states that if a player receives a second fighting major during League play, they would receive a two (2) game suspension from League play. As this is a League Regulation and not a Hockey Saskatchewan Regulation, it is applied to League play only. Therefore, this player sits out two (2) League games and can participate in Hockey Saskatchewan sanctioned Tournaments, Exhibition games or Provincial Playoff games. In the event it is the last League game of the year, the League has the discretion to apply the two (2) game suspension during the following year or stipulate it is to be served during the team's next two (2) Hockey Saskatchewan sanctioned games during the season.

j) Any suspension imposed upon any player, coach or team official by the officials of any League or Association registered with Hockey Saskatchewan shall be given full recognition by Hockey Saskatchewan.

6.09.04 All registered leagues under Hockey Saskatchewan must submit to the General Manager a copy of all correspondence involving suspensions by that league. All leagues must abide by the minimum suspensions as set out in 6.09.02.

ALTERNATE SEASON – GUIDELINES/REGULATIONS

Season

April 1 – July 15 Annually

Violation of Starting a Spring/Summer Hockey Program Prior to April 1 and conflicting with the Winter Program will be determined by the Hockey Saskatchewan Officer in charge of Discipline.

Team Formation/Registration

There would be no registration boundaries of any kind for the formation of teams. The total number of players that could be registered on a team would be nineteen (19). Registration forms are available on the Hockey Saskatchewan Website and all forms and fees must be received by the Hockey Saskatchewan Office prior to sanctioning being in effect. Hockey Saskatchewan Senior Manager, Operations Derek Derow is the contact person.

Team Officials

A team may register as many team officials as they wish with the understanding that as per Hockey Canada Playing Rules, only five (5) team officials may be on the bench at one time during a game. Minimum Coaching Certification would be as per Branch Regulations and all requirements will be those of the "A" category and below.

Team/Participant Fees

\$50.00 per team

\$10 per participant (Player or Team Official). If the player or Team Official was not registered in the previous Winter Season the Participant Fee is \$48.

Tournament Sanction Fees

The \$25.00 per age group/division fee would apply which is the same as in the Winter.

For example; Tournament has three age groups (U9, U11 and U13) along with two levels/tiers in each age group – that would equate into six Tournament Sanctions.

Sanctioned Tournaments must ensure all teams participating are registered with their respective Provincial Association and/or Hockey Saskatchewan.

Minimum Suspension Guidelines

The Hockey Canada/Branch Minimum Suspension Guidelines will apply and suspensions will be carried over from Winter to Alternate and Alternate

to Winter.

Spring/Summer Tryout Time

Spring/Summer Teams will have the following time frame to conduct legitimate tryout sessions and/or skates:

December 24 – 31 Annually

Violation of Tryout Time Dates

Hockey Saskatchewan will determine what type of Suspension would be applied and to whom for the violation of reported tryout time dates.

Officiating

Hockey Saskatchewan registered Officials from the Winter season are eligible to work sanctioned activities during the Alternate Season.

HOCKEY CANADA INSURANCE PROGRAM NEGLIGENCE; THE REALITY OF LITIGATION

Everyone realizes that accidents sometimes happen. A little thought will lead to an equally clear conclusion – sometimes an accident could have been avoided by exercising more care. Sometimes accidents that lead to injuries were caused by negligence.

Negligence is a legal concept of fault or blameworthiness which, stripped of complicated terminology to its essential components, means that someone failed to do something they should have done, or did something they should not have done. The standard of conduct the law expects is that of the reasonable person, having regard to all the factual circumstances of the case.

Where an injured person (the Plaintiff) believes that his or her injuries were caused by the negligence of someone else, he or she has the right to commence a lawsuit claiming an amount of money (damages) from the allegedly negligent person (the Defendant). Damages may be claimed for losses of two types: monetary losses, such as medical expenses, loss of wages and the costs of care, and non-monetary losses for pain, suffering and the loss of enjoyment of life.

In our legal system, the issues raised in lawsuits by the Plaintiff and Defendant are often decided after a trial by a trial judge or judge and jury. The Plaintiff has an onus of proving both the negligence of the Defendant and the amount of the damages he or she claims on a balance of probabilities. This means the Plaintiff must show, through evidence, that it is more likely

than not that the Defendant failed to do what was reasonable in all the circumstances of the case, and that the Defendant's unreasonable conduct caused the Plaintiff to suffer harm of some kind.

The amount of damages which a court might award to an injured Plaintiff will vary depending on the severity of the injuries suffered. A very serious, permanent injury which was caused by negligence may legitimately lead to significant damage awards. Even relatively minor injuries, from which the Plaintiff makes a full recovery, may justify an award of thousands of dollars in damages. Damages are not, in the great majority of cases, intended to fine or punish the Defendant. They are only to compensate the Plaintiff.

The litigation process may be slow moving. Cases often take several years or even longer to reach trial. It frequently appears inefficient or cumbersome to those involved in lawsuits. Any lawsuit will cause the parties on both sides a certain amount of anxiety, inconvenience and expense. Involvement in a lawsuit is seldom an experience that is enjoyed by anyone, whether Plaintiff or Defendant.

There are risks of injury in almost every activity. Hockey is a vigorous, physical game played at high speeds, which carries with it obvious inherent hazard risks, both to participants and spectators. The courts recognize that the standards of reasonable conduct applicable to hockey players during practices and games are not the same standards which apply on the streets or at social gatherings. However, hockey players are not immune from potential liability for negligence. Deliberate cheap shots and fighting which result in injury to other players may well lead to legal liability. Where it results in physical injuries to another person, unnecessary roughhousing, showing off or fooling around which isn't part of the game might also be criticized by the courts, whether it occurs on the ice, on the bench or in the dressing room. Coaches and others who encourage or condone such actions might also be held responsible for any injury that results. All participants should attempt at all times to ensure that hockey is played cleanly and fairly, that dangerous activities which are not part of the game are avoided and that everyone treats others with the same care, consideration and respect they hope to receive in return. The reason isn't only to avoid potential lawsuits. Remember, no amount of money, no matter how large, can restore the physical health, remove the scars or erase the pain of an injured person.

PURPOSE OF THE INSURANCE PROGRAM

The Insurance Program assists in ensuring that adequate financial resources are in place to compensate those who are injured or who have suffered a

financial loss as the result of their involvement in hockey. It involves good financial management, so that funds are in place to meet claims obligations when they fall due. It also includes establishing control mechanisms so only genuine claims are reimbursed.

Insurance is one important method of handling claims, but only when it is practical, possible and cost-effective. Ironically, insurance is not available to cover many hockey-related risk exposures, as many times the desired coverage is simply unaffordable.

Hockey Canada has constructed an Insurance Program to provide financial resources to help deal with the cost of risks which confront organized hockey.

Hockey is managed primarily by extremely dedicated volunteers. The real purpose of this section is to provide guidance when decisions are being made which may affect the degree of risk assumed by a league or team.

Every effort has been made to make this section as helpful and comprehensive as possible. If any doubt remains about a specific situation, please consult Hockey Saskatchewan.

ARE YOU COVERED?

Hockey Canada and its Members are specifically named as insured, as well as all sub-associations, leagues and teams which form a part of Hockey Canada. That includes any officer, director, employee, coach, volunteer, instructor, referee or participant of a committee while acting within the scope of their duties. It also includes participants of any teams, leagues, Member teams, division teams, national teams or international teams provided all are registered with or affiliated with Hockey Canada, any sponsor of any team or Hockey Canada, but only with respect to their liability as such, and any owner of an insured team.

NOTE: A volunteer is a non-paid person donating his or her time and who is assigned specific duties and for whom a premium has been paid.

When are you covered?

1. Hockey Canada/member sanctioned events (league games, tournaments, practices, training camps, sanctioned fundraisers) when playing member teams only.
2. Transportation directly to and from the facility.

3. Accommodations while billeted or at a hotel during a Hockey Canada/ member sanctioned hockey activity.

FEATURES OF THE INSURANCE PROGRAM

TYPES OF COVERAGE

COVID-19 PANDEMIC

Under Hockey Canada's current General Liability policy, the following is the definition for bodily injury:

"Bodily Injury" means bodily injury, sickness, disease, mental injury, mental anguish or nervous shock sustained by a person, including death resulting from any of these at any time.

As it relates to COVID-19, that would fall within the definition – more specifically, under disease.

Liability claims against Hockey Canada always need to be proven by the third party, so continuing to update and enforce risk-management guidelines as new risks emerge, such as COVID-19, are imperative. Understand that Hockey Canada and its Members are actively working on updating risk-management protocols related to return-to-hockey guidelines post-COVID-19.

As with all claim scenarios, the insurance company would investigate all claims presented against any Member of Hockey Canada that falls within the 'bodily injury' definition and would confirm coverage based on the framing of the allegations.

It will also be important to review new municipal rink/private rink facility contracts post-COVID-19 for all rentals; in all likelihood, they will now contain a new clause which absolves the municipality/private facility owners of any liability related to COVID-19.

New lease agreements will need to be carefully scrutinized given that organizations will potentially have little control over cleaning/sanitizing of rented premises and shouldn't be expected to take on all liability related to COVID-19 in these facilities.

Finally, it should be noted that many insurance companies are implementing Communicable Disease/COVID-19 exclusions on all policies either

immediately, or upon renewal. Hockey Canada can advise that AIG, who is Hockey Canada's primary General Liability insurer, has agreed to waive this exclusion in the General Liability policy until Sept. 1, 2023. Hockey Canada will NOT have this exclusion in its policy until that date, at the earliest.

General Liability

The liability coverage is designed to cover Hockey Canada-registered participants for their on- and off-ice activities while participating in Hockey Canada sanctioned events.

This coverage responds on behalf of an individual who has paid a premium or had a premium paid on their behalf, and who is named as a defendant in a lawsuit alleging that, that individual was negligent doing whatever it was they were alleged to have done or did not do what they should have done and thereby contributed to the personal injury the claimant incurred. The Hockey Canada Liability Policy will provide up to \$20 million of coverage with respect to a single liability occurrence, as dictated by the terms and conditions of the policy.

The policy is designed to cover those events your team would typically be involved in. For example, if a local hockey association were to rent a bus and driver to transport a team to a game or tournament sanctioned by the Member, and if that vehicle was in an accident and a number of players suffered serious injuries and a lawsuit ensued, then the liability coverage placed on that vehicle by the owners would respond to any claims which might arise, and should that coverage be insufficient to respond to all of the damages awarded, then the Hockey Canada coverage/policy would respond as the secondary carrier to the maximum allowable by the policy.

As identified, the Hockey Canada Liability Policy is a General Liability insurance policy designed to respond on behalf of any of the registered participants in the game, including players, coaches, managers, trainers/safety persons, on- and off- ice officials and volunteers.

This policy is a Personal Injury and Property Damage policy.

Personal Injury - Example: A player receives a serious injury during a sanctioned game and as a result of that injury, a lawsuit arises. If you, as a coach, are named as one of the defendants in that lawsuit, alleging that you were negligent by "not doing something you should have done" or "doing something you should not have done," then the Hockey Canada Liability Policy would respond on your behalf in defending you in that action from

the first dollar.

Property Damage - Example: A team was in its dressing room prior to the start of the game, and while the coach was absent, a number of players started 'horsing around' which resulted in damage being done to the walls of the dressing room. A claim was made by the facility owner for recovery of costs incurred to repair the damage. If the coach was named as being negligent for not properly supervising the players, then the Hockey Canada policy would defend his interests. It should be pointed out that in the property damage area of the policy there is a \$50,000 deductible. In addition, it should be noted that there are exclusions within the policy wherein the policy would not respond on behalf of any individual where it is shown that the claim has arisen as a result of an intentional act by the defendant.

Accidental Death & Dismemberment (AD&D) - AD&D insurance covers very serious, permanent injuries that might occur while participating in a Hockey Canada/Member sanctioned activity. This coverage is in addition to any other valid and collectable insurance policy.

HOCKEY CANADA DIRECTORS & OFFICERS LIABILITY INSURANCE PROGRAM (D&O)

Hockey Canada's D&O Liability Insurance Program covers the directors, officers, staff members, employees and volunteers of all local hockey associations, junior teams, senior teams, Members and Major Junior teams and leagues for their exposure to legal action(s) and other claims arising from alleged wrongful acts which they are believed to have committed while acting in their hockey-related capacities. This coverage has a maximum of \$30 million.

When coverage applies, the policy will provide for an insured's defence against the reported claim. If an insured is found liable for damages sustained by a claimant or plaintiff, coverage is provided for such damages subject to the terms and conditions of the applicable policy.

In the event that a director or officer should receive an action or demand letter against them, the Member office must be advised immediately so proper steps can be taken to investigate, determine coverage and defend the case.

MAJOR MEDICAL/DENTAL COVERAGE

This insurance augments provincial, medical and hospital plans. It covers players, coaches, trainers/safety persons, officials and other designated volunteers against accidents which occur during participation in a Hockey Canada/Member sanctioned activity.

This plan is designed to provide coverage for those who might otherwise not be covered by any other group health insurance plan. It can also serve as a supplement to other similar coverage an individual or family may hold, to achieve maximum allowable coverage. It is not applicable as an addition when another plan's coverage meets or exceeds the allowable amount.

ACCIDENTAL DENTAL EXPENSE BENEFIT

This Dental coverage operates under the same guidelines as the Major Medical coverage.

When accidental injury to whole or sound teeth shall, within 30 days, require treatment, the plan will pay for reasonable expenses actually incurred within

52 weeks after the date of the accident.

Maximum \$1,250 per tooth
Up to a \$3,000 maximum
Effective September 1, 2018

If, due to the age of the covered members, dental development is not sufficient to permit treatment within 52 weeks, a report from the dentist or dental surgeon is required within 90 days of the date of accident, stating pertinent facts as to the damage. On receipt of a satisfactory report, the incurred expenses will be paid, subject to a maximum future treatment limit of \$3,000. Capped or crowned teeth shall be deemed as whole or sound.

ACCIDENTAL MEDICAL TREATMENT BENEFIT

When by reason of injury, and within 30 days from the date of the accident, the insured person requires medical treatment or incurs expenses for any of the following services, while under the regular care and attendance of a legally-qualified physician or surgeon who is not a member of the immediate family of the insured person with respect to items 1 to 7:

1. Private duty nursing by a licensed graduate nurse (R.N.) who does not ordinarily reside in the insured person's home or is not a member of their immediate family.
2. Ambulance transportation expenses, when such service is provided by a professional ambulance service of the nearest approved hospital which is equipped to provide the required and recommended necessary treatment, will be reimbursed at 100%.
3. Hospital services for which benefits are not provided by any federal or provincial government hospital insurance plan administered by the province or territory in which the insured person normally resides, whether paid or not.
4. Rental of a wheelchair, iron lung and other durable equipment for therapeutic treatment, not to exceed the purchase price prevailing at the time rental became necessary.
5. Fees of a licensed physiotherapist, athletic therapist, registered massage therapist, chiropractor or osteopath recommended by a legally-qualified physician or surgeon will be reimbursed up to \$750 (as of Sept. 1, 2018) in any one hockey season. No payments will be made to any team

personnel who refer players to their clinic for treatment. (Note that medical equipment related to therapy would be considered under the \$750 per year maximum).

6. Drugs and medicines purchased by prescription made by a physician or surgeon.

7. Miscellaneous expenses such as hearing aids, crutches, splints, casts, trusses and braces, but excluding replacement there of.

Hockey Canada will pay the necessary expenses actually incurred, therefore, by or on behalf of an insured person within 52 weeks after the date of the accident, not to exceed the amount of \$5,000 as a result of any one accident. Any sublimits or co-insurance indicated shall apply.

Hockey Canada shall not be liable for any expense incurred for treatment or services by a legally-qualified physician or surgeon.

This policy is subject to and shall not contravene any federal or provincial/territorial statutory requirement with respect to hospital and/or medical plans, nor shall it duplicate any benefits which are provided under any federal or provincial/territorial hospital or medical plans, or any other providing a reimbursement expense.

PROSTHETIC APPLIANCE BENEFIT

Will pay all reasonable costs for the purchase of artificial legs, eyes, etc. necessitated by accidental injury.

Maximum \$1,000

TUTORIAL EXPENSE BENEFIT

Maximum \$ 2,000

EMERGENCY TAXI AND TRAVEL EXPENSE BENEFIT

This benefit will pay the reasonable expense incurred for a licensed taxi to

transport the eligible member to the nearest hospital or a doctor's office, where immediate medical attention is required. In certain circumstances Hockey Canada will consider the reimbursement of fuel for a volunteer who provides the same service due to immediate need of medical attention.

The Travel Expense Benefit will pay the cost of all reasonable travel expenses incurred as a result of an accidental injury. Treatment must begin within 30 days of an accident for coverage to apply.

Maximum \$140 per accident

We shall do this based on a \$250 per week/\$1000 maximum per claim limit. This benefit is not intended to reimburse for missed assignments, or act as a supplement to any other loss of income benefit such as Employment Insurance, sick leave, long- or short term disability, or a reduced income due to the injury. Proper documentation of the lost earnings in the form of a Statement of Earnings and Deductions will be required.

Maximum \$250/week, 14 day waiting period

Maximum \$1000/claim, 14 day waiting period

CONCUSSION INJURIES

Concussion injuries involve many different interventions. Hockey Canada will consider the following coverage related to a concussion which has been diagnosed by a physician:

- Physiotherapy under the current maximum of \$750 per year (as of Sept. 1, 2018).
- Neuropsychology, which falls under the current physiotherapy maximum per year.
- Tutorial expenses as previously described.

Note that Hockey Canada insurance does not cover expenses for baseline testing.

Important Notes

**** If traveling outside of Canada for a sanctioned hockey related activity the Hockey Canada accident/dental coverage is considered secondary. Participants MUST purchase appropriate out of country medical coverage to act as their primary insurer in the country they are visiting.***

**** If traveling to a different Province to play participants should check with their Provincial/Territorial Health Care provider to confirm coverages in the Province/Territory being visited.***

Players from outside of Canada coming into Canada to play on a Hockey Canada sanctioned team must purchase primary medical coverage for the time they will be residing here. The Hockey Canada accident/dental coverage acts as a secondary provider only.

This insurance coverage is part of a Trust Agreement.

This booklet contains a general description of the Hockey Canada Insurance Program and its features. If there is a discrepancy between this booklet, and the master policy, then the terms and provisions of the master policies shall take precedence. CASE STUDIES

Note: When reviewing these cases, please remember that Hockey Canada is the player, coach, team official, volunteer, referee, etc. ... those involved in a sanctioned Hockey Canada/member event.

CASE #1

In the course of a junior hockey game, tempers flare, gloves are dropped and the helmets come off. A fight ensues between two players and injuries occur. The smaller of the two players incurs broken teeth, a broken jaw and facial lacerations. He subsequently initiates legal action and sues his assailant. He also presses charges for assault. Is Hockey Canada major medical/dental coverage provided for the injured player?

Yes. A claim for medical/dental expenses would be considered for reimbursement if the helmets were not deliberately taken off. No liability insurance would apply as this fight would be considered an intentional act.

CASE #2

While driving to an out-of-town game, a car carrying four players is forced off the road and overturns. The accident leaves one player dead. What is the process for accessing the accidental death benefit?

It is important that as soon as possible you contact the member office to report this accident. You will then be directed as to next steps with respect to the applicable policies.

The information that may be requested can include:

- A police autopsy and toxicology report
- A map (illustrating location of sanctioned event, place of departure, accident and intended destination)
- Press clippings
- Death certificate
- Confirmation of players' eligibility and approved accident claim forms must be received within 90 days.

You may also be contacted, and the following information may also be required: i) game report; ii) registration certificate; and iii) accident report form.

CASE #3

During an adult recreational game, a player is accidentally struck in the eye with the butt end of a stick. Two weeks later, as a result of swelling, he submits an accident claim to the coach indicating he cannot see properly out of the injured eye. The coach decides this is only a temporary injury and holds the claim. Forty-five days later, the player again follows-up with the coach regarding the claim for the eye injury and the coach again fails to respond. Over the course of several months, the player is in contact with the coach with respect to the eye injury. There is still some vision in the injured eye, so no action is taken. The following season, the coach and Member are advised that the player has lost sight in the injured eye and a claim is submitted under the Hockey Canada AD&D policy. Will the policy respond?

No. The insurance company requires notification of claim within 90 days from the date of the accident.

CASE #4

A U9 player is all dressed for his game and eager to get to the arena. He has his skates on and his stick in hand and heads out to his father's car in the laneway. The player trips going down the stairs at his house and chips his front teeth. The dentist advises that the proper dental restoration must take place over a period of time as the child grows. Does the Hockey Canada policy respond? To what limits? Over what period of time?

Yes. However, if the child's parents are covered by an extended health plan provided by their respective employers, this plan would pay first and the Hockey Canada plan would pay the balance of the cost up to the policy limits. Under the terms of the Hockey Canada plan, all of the work by the dentist must be completed within a year of the accident, unless the dental development of the player is not sufficient to allow proper treatment, and appropriate paperwork advising this is forwarded to the Hockey Canada office in Ottawa.

CASE #5

During a league game, a fight breaks out among the spectators in the stands. The arena security staff are incompetent, and instead of containing the situation, they take action that provokes a general riot. The security staff have been hired by the owners of the arena, and are under their control

and supervision. A dozen or more lawsuits are brought against the arena owners, alleging that their negligence and lack of care caused a number of serious injuries. The arena owners pass these suits to Hockey Canada, because Hockey Canada signed a contractual agreement with the arena whereby Hockey Canada agreed to indemnify and hold the owners harmless for any and all liability directly or indirectly arising from Hockey Canada's use of the premises.

The Hockey Canada liability policy is quite readily prepared to respond on behalf of all members to claims which arise from an accident, incident or occurrence which resulted from the negligence of one of our members. The Hockey Canada policy is not, however, prepared to accept responsibility and respond to any claim which may arise from an accident, incident or occurrence which happened directly or indirectly as a result of the negligence of someone who is not a participant of Hockey Canada or any of its Members (e.g. arena staff member, owner or operator of a facility). It is therefore imperative that every individual who has the responsibility for signing rink rental agreements ensures that a contract does not contain a hold harmless clause, which in effect would transfer all of the liability for any incident, accident or occurrence which took place in that facility, regardless of who was ultimately negligent.

CASE #6

A team manager receives a complaint from the parents of a player who has recently been dropped from the team. The parents allege that their child has sustained a potentially disabling injury during a practice as a direct result of the coach's negligence. The manager decides the complaint has no merit, and the parents are simply troublemakers. He decides to ignore the letter. Some months later, he receives a letter from legal counsel retained by the parents, relating to the same matter. It invites the manager to enter discussions for a settlement. Once again, the manager ignores it.

Some months later still, the manager receives a writ (claim), signalling that the parents have initiated formal legal action. This time the manager sends the writ on to the Member, which promptly sends it to Hockey Canada, which in turn reports it to the insurers. Will the insurers consider that the claim is covered by the policy under these circumstances?

Maybe. The insurance company may decline to pay if late reporting is a factor. Prompt reporting is imperative.

CASE #7

The team has a final practice prior to leaving town for a road game the following day. The coach arranges for the players' equipment to be stored in his garage overnight, since the transport rendez-vous will be in his driveway. The garage is left unlocked and the equipment is stolen. We will further assume that because the door is unlocked, the coach is negligent and is likely to be legally liable for the loss of the property. Will Hockey Canada's liability policy pay?

No. There exists an exclusion specific to the property in the 'care, custody or control', of the insured.

CASE #8

A young player is billeted for a tournament in another town where they are subjected to sexual abuse. The parents sue Hockey Canada, the team managers and others for not ensuring the hosts were of good repute and character. Will Hockey Canada policy pay for the defence and judgement, if any?

Yes and no. If the damage is psychological rather than corporeal, it may nevertheless be considered to be 'bodily injury' and therefore covered within the scope of the bodily injury liability insuring agreement. There is, however, an exclusion with respect to damages or injury caused intentionally. It could be argued that 'injury' resulting from sexual abuse is intentional on the part of the abuser. If it should be so held, then the policy would not protect the abuser, but it would protect Hockey Canada if it was brought into the suit for damages.

CASE #9

The fundraising event is a great success, and the volunteers at the bar are pouring with a heavy hand. They continue to serve some people who have clearly already had too much. One of these customers is involved in a head-on collision on the way home as a result of intoxication, causing death and serious injuries. Hockey Canada is subsequently sued under the Provincial Liquor Law Act that makes the servers of liquor responsible when it may be perceived that their negligence has directly or indirectly been involved in, or contributed to, such an incident. Will the Hockey Canada policy respond?

Yes. The Hockey Canada policy includes exposure to liability for bodily injury and property damage that may be generated by provincial/territorial

statutes relating to liquor law liability (subject to the policy's other terms and conditions). It will not pay exemplary or punitive damages, nor any fines or penalties.

CASE #10

A Under-15 (U15) hockey player is fighting for the puck two metres from the side boards. They are checked from behind into the boards and suffer a broken neck, rendering them a paraplegic. The injured player subsequently sues the player who checked them, as well as the three game officials, the two coaches, the local hockey association, the Member and Hockey Canada. The suit is for \$5.4 million. Will the Hockey Canada liability policy respond, and to what extent?

Yes. The Hockey Canada liability policy would respond on behalf of all parties provided they were properly registered, had a premium paid on their behalf and were playing in a properly sanctioned Hockey Canada game.

CASE #11

You coach a U9 hockey team. You have scheduled a practice for Tuesday night, however, one of your two (2) assistant coaches cannot attend. You develop your practice plan keeping in mind there will be two coaches on the ice instead of the usual three. When you get to the arena, a parent of one of the players, noticing there are only two coaches, offers his assistance. You reply, "we can always use a hand", and he gets ready and goes on the ice during practice. Is this parent covered under the Hockey Canada insurance plan?

Absolutely not. There has been no premium paid on behalf of the parent. Hockey Canada may, at its discretion, cover an "emergency volunteer" provided it was well documented, but it does not extend coverage to anyone who volunteers in a non-emergency situation. In addition, Hockey Canada does not cover parent-child games, student-teacher games or other exhibition games against non- members of Hockey Canada.

CASE #12

Your local hockey association asked a member of the association to chair its fundraising activities for the year without performing a background check on the individual. One of the fundraising activities netted the association \$25,000, but the money has since gone missing. The members of the association file a lawsuit alleging the board of directors was negligent in

handling the funds derived from the fundraising venture, and should have exercised greater care when asking the member of the association to handle the funds when they knew, or ought to have known, that he was convicted of fraud six years ago. Are you covered?

Yes and no. This claim is alleging financial mismanagement and incorrect hiring practices and therefore is covered under the Hockey Canada D&O policy. This policy will defend the claim on behalf of the association and its individual officers and directors. Any claim advanced against the member allegedly responsible for the theft would not be covered under the policy.
