

CALGARY WOMEN'S SOCCER ASSOCIATION

GENERATIONS UNITING TOGETHER

Thursday, July 15, 2021

Good Afternoon Team Officials,

With the air quality issues that we are currently experiencing in and around the city, we would like to remind you all of the [CWSA Air Quality Policy](#). The CWSA Air Quality Policy is to be followed when there is an Air Quality advisory in effect for the City of Calgary and area.

Teams should also refer to the [Alberta Soccer "Air Aware - Air Quality Monitoring Guidelines"](#). This document is meant to serve as a guideline for Affiliated Members, Team Officials, Players and Match Officials affiliated with Alberta Soccer. As a guideline, it suggests what Affiliated Members, match officials and team officials should consider in assessing air quality at local fields and awareness of potential health impacts.

Both documents have been attached to this email for you to reference and are also always available on the CWSA Website under General League Info → Governance
<https://www.mycwsa.ca/content/governance>

Thank you for your attention,

CWSA Staff
