A Word From The President

2020 will be remembered for years to come. A year when our lives were upended to the point of profoundly changing our daily lives due to the prevailing uncertainty.

At Aquam, this resulted in a significant decline in our operations. In fact, because of public pools closures in both Canada and the United States, we were forced to lay off several employees over a period of four weeks as others worked from home to prepare for the return to normal. At the time of writing these few lines (September), life was not back to normal, but we are very pleased to see an increase in our sales for every week since the beginning of July.

Now more than ever, we appreciate your loyalty. Thanks to all of you from coast to coast, we will be able to come back even stronger when the storm has passed. We know that you understand the importance of purchasing your products from a 100% Canadian company, as Aquam has been since 1987.

The entire team joins me in thanking you and telling you that our thoughts will be with you and your families in the coming months for we know that challenges are not quite behind us yet.

Sincerely,

Mario Durocher
President

Look for this symbol throughout the catalogue!
It identifies our customers' top picks.

More than 25% of our products are made in Canada and 50% of our products are purchased from Canadian companies. Find them in the catalogue!

In a list of products, the red asterisk indicates a single product made in Canada.

All stainless steel products identified are powder coated.

FOB Factory

Products identified with this mention will be shipped from the manufacturer's warehouse. Transport fees will therefore be added to the cost of the product. Contact our customer service team for more information.

IMPORTANT NOTE

Our prices will be revised in 2021.

Starting in January, please contact us for current prices and to request a quote for your budget forecast.

Be informed of new arrivals and price updates by visiting our website and by subscribing to our newsletter.

The Strength of a Team

What do all the members of our team have in common? They are all authentic, competent, talented people who join forces day after day to meet your needs in the best way possible. From those in the forefront to those in the shadows, each group works in synergy with the next to offer you products and services second to none.

Aquam has always been, since the beginning thirty-two years ago, a great place to work and to evolve, which is why our team counts among its members passionate employees who have accumulated several years of experience working in the aquatic industry. You are in good hands!

A Partner You Can Count On

Aquam in Numbers

Products

We distribute some 4000 individual products, over half of which come from Canadian companies.

Employees

We employ thirty-five people in various positions: sales, special projects, customer service, accounting, design, shipping, etc.

Customers

In 2019, 3000 North American customers showed their trust by choosing us as their aquatic equipment supplier.

Our Values

Consulting

It is our pleasure to be able to advise you and accompany through every step of your project.

Innovation

Always a leader in the development of products designed to meet the needs of our clientele, our product line is constantly evolving as current trends change.

Commitment

We proudly support organizations who work in the fields of aquatic development and accident prevention.

Aquam Is Involved

This year, **\$105 000** will be given to various aquatic organizations.

Aquam Supports Student Athletes

The development of aquatic sports has been tremendously important to us since the very beginning, and we are proud to support several aquatic federations, organizations, and sporting events.

As well, beginning 2015, in partnership with the Fondation de l'Athlète d'Excellence du Québec, Aquam has participated in a scholarship program tailored to meet the needs of student athletes.

We proudly support the following rising stars:

Aquam Plants Trees

For the eleventh consecutive year, Aquam is participating in a tree planting program promoted by Tree Canada.

This year, we are funding the planting of 300 trees in different Canadian regions to offset the paper used in the printing of this catalogue.

Special Projects

Our Special Projects department is a team of professionals who are passionate about meeting the specialized needs of our clients. Experienced industrial designers and project managers work hand-in-hand with aquatic directors, architects, engineers, and contractors to turn your request into reality. You will be accompanied through every phase of your aquatic construction or renovation project. That's our commitment.

We're also committed to your peace of mind. The department has a thorough knowledge of current safety procedures, as well as a complete understanding of applicable regulations when hosting an international competition. And when it comes to details, every project, regardless of its size, is given equal attention.

Our expertise is at your disposal.

Julien Garceau, Assistant Project Manager
Karine Ouellette, Project Manager

Our Achievements

Starting Blocks

Blainville Recreational Aquatic Centre

Project: Replace the existing starting blocks with a model that would satisfy user demands and the requirements of competitive swim meets.

Achievement: Removal of the existing starting blocks, installation of anchors and ten new Elite starting blocks complete with Track Start.

Daktronics

Drummondville Indoor Pool

Project: Install a digital timing system for use during sports competitions.

Achievement: Supplying and installing a Daktronics video screen for displaying results of swimming, diving, and water polo competitions, as well as informational content and advertising.

Slide

McMasterville Outdoor Pool

Project: Install a 5-metre slide.

Achievement: The design, supply, and installation of a slide including an accompanying staircase with a landing, in accordance with local safety regulations.

Barriers / Railings

City of Sept-Îles Aquatic Complex

Project: Installation of a safety barrier to separate the two pools.

Achievement: The design, supply, and installation of a barrier according to the client's specifications.

Pirate Boat

Dieppe Aquatic and Sport Centre

Project: Propose a pirate boat to enliven the recreational area of the pool.

Achievement: Designing and supplying a fibreglass pirate boat, complete with a slide, cannons, and water jets.

Water Games

Annie-Pelletier Pool, Montreal

Project: Develop an entertaining play area for small children.

Achievement: Furnishing the wading pool with a carefully chosen selection of water games, including an elephant slide and a serpent.

Large-Scale Projects

Desjardins Sport Complex - Rimouski

The sport complex in Rimouski is among the largest projects we have participated in recently. Inaugurated in February 2019, the complex features two distinct zones, ice and aquatic. The aquatic centre comprises a 25 m x 25 m competition pool, leisure pool, lazy river (current channel), hot tubs, and a splash-and-play area for kids.

In addition to acting in an advisory capacity to the project managers, we also supplied several pieces of key equipment, namely access ramps, hand rails, ladders, Ultra Lifeguard Chairs, Elite Starting Blocks with Track Start, 1 m springboard, 3 m springboard, 3 m diving stand, and an entire Daktronics timing system and video display scoreboard. All stainless steel equipment was powder coated to prolong its lifespan.

One element of the project that is a particular source of pride for us is the bridge spanning the lazy river. The powder-coated, stainless steel structure was custom-built for the facility, and it not only serves the practical purpose of connecting two zones, it is also a unique architectural point of interest.

Stainless Steel Care

Powder Coating

All new stainless steel products may be powder coated, choosing from a selection of colours. As well as adding colour to your installation, this procedure effectively protects the material from corrosion.

Refinishing

In some cases, we may be able to restore the finish of the stainless steel on your equipment; the level of wear will determine whether such a process is feasible or not.

Maintenance

We offer maintenance service for stainless steel products, as well as deep cleaning for diving board components. Upon request, we also offer staff training sessions for optimal equipment maintenance.

Powder Coated Ultra Lifeguard Chair

Recreation

Aquam flotation devices

Our PFDs are all approved by Transport Canada.

Made of high quality materials, they are treated with an antimicrobial agent to help protect from unpleasant odors, bacteria, mold and mildew. All zippers are corrosion-proof.

Personal Flotation Devices

Our personal flotation devices are designed to keep an unconscious person's head out of water and to assist them through rough waters.

The child vests feature a head support floating collar with safety grab-loop, a two-colour design for easy sizing and a 1 in waist belt and crotch strap with side-release buckles.

Adult vests are equipped with a 1½ in waist belt with side-release buckle.

Dolphin Floating Seat

This is the perfect product for seating little ones during parent and tot fitness classes or simply to use during a family aquatic activity. Manufactured from top-quality EVA foam, this product floats perfectly and is completely stable. It is ideal for children between the ages of 6 months and 3 years (15 to 35 lb). The child sits in a durable, comfortable neoprene seat and floats around the pool. Equipped with a floating cord that allows constant contact with the child. Please keep in mind that even though the Dolphin seat is an extremely secure product, children should never be left unattended.

Foam Toys

The 6.5 Mat

Here is the thickest play raft that we've ever distributed! Created for having a blast in the water and making all kinds of playful structures, the raft features apertures for inserting sea serpents (ER-02600) and creating as many floatable games as your imagination lets you. Boasting extraordinary rigidity and buoyancy, this raft is 6.5 cm thick. Sea serpents not included.

Dimensions: 95 cm x 1.95 m x 6.5 cm

		Unit (\$)
ER-02200	The 6.5 Mat	309.99

The Canoe

The Canoe is made for children to pretend they're in the great outdoors. It was built to accommodate 1 or 2 children at the same time while paddling about the pool. Manufactured from the highest quality EVA foam on the market, the Canoe is a great tool for developing coordination and balance in the water. You'll enjoy this foam toy for years to come. Colours may vary. Assembly required. Two paddles included with the canoe.

Dimensions: 2 m x 66 cm.

		Unit (\$)
ER-01460	The Canoe	560.99
ER-02395	Paddles (2)	101.99

The Car

This unique toy brings life to your pool! Let your kids drive around the pool by kicking their feet to 'power' the car. Manufactured from the highest quality EVA foam on the market, this foam toy will last for years to come. Colours may vary. Assembly required.

Dimensions: 1.5 m x 82 cm

		Unit (\$)
ER-01456	The Car	478.99

The Channel

The Channel was designed to accommodate several children at the same time. Kids sit on the channel, allowing water to funnel through or channel along the surface of the foam toy. Helpful in developing balance in the water, it can be rocked from side to side. Turn it over and it becomes a mountain kids will love to climb. Manufactured from the highest quality EVA foam on the market, this foam toy will last for years to come. Colours may vary. Assembly required.

Dimensions: 1.8 m long x 88 cm wide

		Unit (\$)
ER-01458	The Channel	751.99

Floating Tot Slide

Slides are always popular with children. This floating version is no exception! Let kids climb onto the slide using the steps and gently slide into the water. The bottom part of this slide can also be used as a tunnel. For easy storage, simply detach the top from the bottom part and it becomes flat. Manufactured from the highest quality EVA foam on the market and Neotex for a more slippery slide, this foam toy will last for years. Colours may vary. Assembly required.

Dimensions: 2 m x 1 m x 60 cm

ER-01462 Floating Tot Slide Unit (\$) 681.99

Serpano

Built to accommodate several children at a time, the Serpano will amuse and delight the kids at your pool. You can move its head and tail from side to side to simulate the movement of a snake. Manufactured from the highest quality EVA foam on the market, this foam toy will last for years.

Colours may vary. Assembly required.

Dimensions: 3.5 m x 50 cm

ER-01457 Serpano Unit (\$) 513.99

The Wreck

This foam toy is just like a shipwreck. There is no floor so the kids can straddle the cylinders on each end of the wreck. They can play teeter-totter games, practice balancing while sitting or lying on their stomach, as well as practice diving into the water from a sitting position. Manufactured from the highest quality EVA foam on the market, this foam toy will last for years.

Colours may vary. Assembly required.

Dimensions: 1.5 m x 1 m

ER-01455 The Wreck Unit (\$) 520.99

The Mini-Boat

The Mini-Boat is one of our most popular foam toys. Built to accommodate up to 6 children at the same time, this foam toy can be used with the deluxe sea serpents as oars, to move about the pool. It is a great tool for developing coordination and balance in the water, or for teaching boat safety to kids. Manufactured from the highest quality EVA foam on the market, this foam toy will last for years to come.

Colours may vary. Assembly is required. Paddles not included.

Dimensions: 2 m x 1 m

ER-01450 The Mini-Boat Unit (\$) 726.99

TYR CrossBlade Fins

CrossBlade fins are an all-purpose training fin. The intermediate blade length combines the attributes of both short- and long-blade fins. Increases tempo and speed while still offering increased resistance to build leg power. Whether you seek technique work or increased power, the CrossBlade is the fin to meet your training needs.

Sold per pair.

Insurance questions?

Our knowledgeable staff can provide safety documents which can be presented to your insurer.

Halfpipe ER-09036
Slip and slide doing simple jumps and tricks.

Action Tower XL ER-09024
Action Tower XXL ER-09022
The Action Towers will test your endurance.

Springboard ER-09085
Use the steps to jump off the platforms at various heights.

Bouncer XXL ER-09050
Very resistant with stainless steel springs for a long rust-free life.

Bridge ER-09002
This Bridge is the perfect obstacle to make your park interesting and competitive.

Cliff ER-09003
Climbing this mountain is quite a challenge, combining speed strength, and agility.

Curve ER-09021
Test your speed on this banked curve. You'd better be quick or you'll slide off.

Quarterpipe ER-09038
There are different ways to cross this challenging product and they are all fun.

Dome ER-09034
Climb the Dome and challenge your friends to see who can make the highest, farthest or coolest move.

Flip ER-09018
Use the Flip as a stand-alone item or connect it to another Wibit product. Experience the exciting feeling of being launched into the air.

Balance Beam ER-09011
A narrow bar for competing one on one – balance and concentration a must!

High Roller ER-09007
Climb, run or crawl - find the best way to cross the High Roller. It's a slippery issue when it's wet!

Hurdle ER-09080
Suitable for shallow water and therefore fits any location!

IceTower XXL ER-09057
The massive IceTower will challenge even the most gifted climbers.

V-Connect ER-09044
Easy obstacle to run or crawl over.

Rodeo Splash ER-09045

Three, two, one, SPLASH! Ride the tubes or slide down.

Monkey Bars ER-09015

Remember the monkey bars in your childhood playground? Use your muscles to swing and dangle like a monkey over the water.

Lifeguard Tower ER-09025

Optimal height for a good overview of the Sports Park.

Roundabout ER-09035

The Roundabout is both a circular speedway and a central meeting point.

Slide ER-09004

For climbing and sliding. The perfect product for children.

Slope ER-09026

This steep slide is the perfect finish for an obstacle course! Are you going to make the climb?

Target ER-09086

Keeping your balance while playing tag is quite a challenge!

Swing ER-09017

The first modular, inflatable Swing in the world!

Spinner ER-09062

Simple body movements make this spin in the water a definite favourite!

Trampoline 4 ER-09016

A unique aquatic trampoline with four connection possibilities. With stainless steel springs.

Ledge ER-09090

Imagine standing on the ledge of a building. Don't lean forward too far as you might fall off.

Twist ER-09095

The Twist offers different levels of difficulty when trying to cross over.

T-Connect ER-09029

Turn left or right – it's always the right choice! The T-Connect allows you to create new and multiple paths for any Wibit configuration.

Deck ER-09020

Use the Deck as a floating lifeguard stand in the water. Can also be combined as an obstacle in the Sports Park.

Climber ER-09063

Kids want to climb everywhere and everything. Just climb up either side and then slide down.

Rock

ER-09092

This new product has three integrated slides and five jumping platforms of various heights. Connect it into your SportsPark or simply add a Step and use it as a standalone product.

Volley

ER-09061

A new dimension of Beach Volleyball: Play it on the water!

Pool Boom

ER-09172

This is a horizontal anchoring system for tall structures (Action Tower XL, Rodeo Slide, Rodeo Splash, and Slope) in swimming pools.

Electric Pump

ER-09154

Specially designed for Wibit products. Super fast, it inflates and deflates Wibit products in no time!

Safety Bungee (4)

ER-09150

Makes anchoring simple and safe. Keeps your product in position and at the same time creates a visible safety perimeter (in pools). Works like a shock absorber keeping pressure off your attachment point. 3 m (9.8ft)

Safety Buoys (3)

ER-09059

The Safety Buoys create a high visibility perimeter for any location. Three Safety Buoys are included in each carton. Two attachment plates make connection simple.

TÜV = Testing + Verification + Certification

Third party testing in accordance with world renowned German TÜV (tuev.com) safety inspectors ensure products are safe. Tests are conducted and assessed by technical experts experienced with floating articles. Moreover, probes, templates and visual examination are used to certify safety. Upon request, Wibit will provide TÜV certificates that indicate products meet and exceed safety requirements.

Wibit Safety Features

Handles with special design to avoid any entrapment hazards

Safety cover flaps. No entrapment hazards between or on the elements

Secure locking valve. Special valves that can not be opened during use

Warning labels and pictograms that comply to EN 15649-2

Extra wide safety pad. No protruding parts that can cause danger

Safety by Design

Commercial-grade anchor attachment points

100% stainless steel springs

Ultra strong grab handles

Reinforced welded seams

1100 g (32 ounce) thick PVC

Little Tikes Slide

Sturdy and lightweight, this portable plastic slide can be placed anywhere around the pool, provided the deck surface is even (to accommodate the base). Note the slide is not anchored; it must be attended by a lifeguard or supervisor at all times when in use.

Dimensions: 1.67 m x 0.97 m x 0.97 m

Weight: 28 lb

	Unit (\$)
ER-22300 Little Tikes Slide	186.00

Tot Slide

Our bright blue fiberglass Tot Slide is designed for toddlers. It features non-slip, textured steps. Portable and easily installed, the slide is not anchored, therefore it requires constant attention and observation by lifeguards. Just place it on the pool deck or in a wading pool; and kids are ready for hours of fun. Must be used on a flat surface due to the base of the slide.

Dimensions: 2.18 m long x 0.74 m wide x 0.74 m high

Weight: 66 lb

Kersplash Pool Climbing Wall

Add Fun and Adventure to Your Aquatic Facility **CLIMB. SPLASH. REPEAT.™**

Kersplash is suited for indoor or outdoor use and is available in two panel styles. Kersplash Crystal Clear® complements any aquatic center and allow complete visibility of the pool area. Kersplash Color makes a bold visual statement with brightly colored panels. Both styles are made from UV and chlorine-resistant materials and feature red, yellow and orange Groperz™ Hand Holds. The Kersplash frame is constructed of high-quality, 100% passivated stainless steel to withstand harsh pool environments.

Kersplash Pool Climbing Walls are modular and can be made to fit any space and deck configuration. The 4' panels attach to a stainless steel frame allowing you to customize the height and width of the wall to meet your needs.

Two Panel Styles

Kersplash Crystal Clear®
Offers visibility to areas behind the wall

Kersplash Coloured
Makes a bold visual statement

Easy to Install

Kersplash requires a footprint of:

- 35" of deck space
- 4' of clearance behind the wall for a walkway
- 5' to either side
- 10' drop zone

Pool depth determines the height of the wall.

Design Your Own Slide

This is your chance to design the perfect slide for your facility. Our modular slide system is completely customizable, allowing for multiple configurations, both in style and size. You may opt for open or enclosed channels, curved or straight sections, or any combination of all style options. Your structure can be expanded both vertically and horizontally, as well as in multiple phases if the budget so dictates. Every project is unique. We can help you design a slide that corresponds to the needs and specifications of your institution.

Your project may be completed in phases. You might consider a simple water slide the first year, and expand upon it with additional modules in succeeding years.

2020

2021

A World of Slides

Aquam has teamed up with a slide manufacturer who's been working in the field since 1980, giving us the opportunity to offer you a large selection of products to choose from for your installation. By carefully controlling costs, using efficient production methods and flexible organization, this manufacturer is able to offer its products at very competitive prices.

If you're looking to build your dream water park, our team of consultants will be able to guide you. They will begin by analyzing your needs and your budget, and will provide you with a set of personalized plans that will get you on your way.

WORLDWIDE

Found in more than 35 countries around the globe, these slides have been designed to resist tough climates and extreme conditions.

Make Your Projects a Reality

HEAVY-DUTY MATERIALS

Offered in a wide range of colours, the tubes are made of reinforced polyester and fibreglass, while the structure itself is made of hot-dipped galvanized steel, or optionally, stainless steel.

SAFETY

The slides are designed to insure user safety and comfort while sliding.

GUARANTEED FUN

Everyone loves water slides. Whether they're moderately sloped or breathtakingly steep, whether they wind their way down over a long series of twists and turns, or go straight down at a heart-stopping pace, people of all ages gravitate to water slide!

They are unquestionably a factor of amusement and success in every water park.

Water Games

How can you make your pool or wading pool fun and attractive for kids? Install a few water games and fun slides.

The water games can be connected to your filtration system (for automatic operation) or operated manually by the children themselves, allowing them to spray water and get soaked to their heart's content.

Pirate Boat

The best way to create an atmosphere of adventure and excitement in your pool is to install a pirate boat!

All boats are custom-made.

And to add to the thrill, a host of accessories such as slides, giants buckets, and canons are available to customize your boat. Suitable for both indoor and outdoor facilities.

Our project managers will guide you through the process.

Tot Dock 

Designed with instructors, this product is safe, stable, and versatile. This tot dock is a blue-chip purchase.

The platform features a large 3.3' x 3.3' surface. The legs can be adjusted at 16", 18", 20" or 22", increasing the accessibility of deeper pools and diversifying the programs available for swimmers. For increased security, the Tot Dock is equipped with a protective screen, reducing the risk of anyone swimming under the platform and getting stuck. Comprised of a 100% stainless-steel frame and a high-density plastic top, the Tot Dock is designed for frequent use, year after year. Must ship via trucking company.

2 white PVC rails included.
Total weight: 130 lb

Training & Aquatic Fitness

Aqua Circuit Training

Aqua Circuit is gaining popularity as a form of exercise which effectively targets the body's cardiovascular and muscular systems by rapidly moving from station to station with short periods of recovery. Known as high-intensity interval training, it helps to maintain the heart rate in the optimal training zone throughout the entire workout.

Equipment includes the aquabike (aqua spinning), the aquatic trampoline, the underwater treadmill, and the aquatic pole. Additional stations, using balls, resistance bands, weights, etc., can be added for the purposes of aquafitness classes, increasing the fun factor and intensity level of the classes. Here, you'll find a few sample circuits which can be adapted to any facility, according to budget and available space.

Sample Circuits

Hydrorider Pro Aquabike

#1 Choice Nationwide

SoloBand Resistance Band

Available 2021

Unique in Canada, the SoloBand is a calibrated elastic resistance band that eliminates the need for multiple bands of varying resistance.

Perfect for rehabilitation, exercise, aquatic fitness, or dryland training, the multiple-loop construction makes it possible to perform a wider variety of exercises. Each band features six sewn-through handles and one central 30 cm loop.

Made of soft, abrasion-resistant material.

Deck Equipment

Racing Lane Lines

The Racing Lane Lines' flow-through design controls water turbulence by allowing wave energy to be dispersed and channeled along the lane. Each lane line consists of a series of polyethylene disks and donuts who meet all FINA standards and are available with tensioner or ratchet reel.

Both models are assembled on vinyl-coated stainless steel cable. Each disk is designed to rotate independently of the others, thus allowing wave energy to be absorbed and dispersed along the lane. This wave reduction optimizes pool conditions for training and competition.

Shipped fully assembled.

Racing Lane Line Connector

This innovative connector links two 25-metre racing lane lines to form one 50-metre line securely and conveniently by hooking the coil end of each line through the designated holes in the connector. An attached floating disc prevents the connector from sinking if it is accidentally dropped or released while attempting to connect the lines.

Line Slider

The Racing Lane Line Slider provides an easy, safe, and fast way to remove your racing lane lines every time they are reeled from your pool. The Line Slider protects the racing lane line from getting caught in and banging against the pool edges. Quickly installed on the pool deck, the Line Slider prolongs the life of your racing lane lines.

Specifications

- Compatible with cables made of 4" or 6" segments
- Very resistant and durable fibreglass
- Flexible PVC trim on the edges
- Integrated handle for easy portability
- Works with most pool profiles, even on decks with lipped edges
- Stackable (we can ship five at a time, stacked in one box, to reduce freight costs)
- Upper surface and underside both white
- Dimensions: 23" long x 16" wide x 20" high (overall) / Height over deck is 8"
- Weight : 6 lb

Foam Animal Floats

Add some fun to your pool with these animal-shaped line floats. Made of EVA foam, these floats are highly resistant and very durable. They are a festive alternative to the regular blue-and-white line floats. Use them to mark off a "no swim" area or to separate the shallow end from the deep end. Included in the package are whales (11.5" x 7"), hippos (12" x 6.5"), and ducks (10" x 8.25"). All fit onto a 3/4" rope. They are stable on the water surface and do not move easily along the rope. Sold in packs of 9. Assorted colours. Rope not included.

DV-80425 Animal Floats (9) **86.99**

Stainless Steel Treatment and Maintenance Services

Stainless steel is the material most commonly used by manufacturers of aquatic equipment. Handrails, ladders, stanchion posts, and starting blocks are a few examples. There are several advantages to using stainless steel.

However, when stainless steel is exposed to heat, humidity, and chloramines, it can eventually corrode. Regular maintenance is the best way to prevent equipment deterioration.

What are your options when corrosion becomes apparent? How can you prolong the life expectancy of your equipment? These are questions that our experts will be happy to answer.

Our **cleaning service** may be requested, following a prior evaluation. A technician will come to your facility to clean the affected equipment; after which, you will be supplied with a regular maintenance plan and suggestions for applying it. This procedure can produce astonishing results, but they vary according to the degree of initial corrosion.

In the case of a **maintenance contract**, a technician will perform regular, scheduled visits.

Stainless steel may be **powder coated**, a process that protects and seals it, effectively prolonging the lifespan of new or used equipment, as well as adding visual appeal.

Project: Clean the handrails and guardrails present on all stainless steel structures.

Achievement: Cleaning accomplished in one visit. A thorough cleaning method was applied, using specialized products.

Project: Protect the lifeguard chairs to prolong their lifespan.

Achievement: Powder coating in various colours of four Ultra lifeguard chairs.

Look for this symbol

All stainless steel products identified with this symbol are powder coated.

Powder coat colour choices

If you would like to have your stainless steel equipment painted, the following colour choices are available:

Elite Starting Block

Platform Cover
p.83

The Elite Starting Block is made to accommodate Track Start which can be adjusted according to swimmers' individual preferences. This new design features two doors which give access to speakers and an in-deck cabling system for connecting timekeeping peripherals (touch pads, push-buttons, speakers, etc.). Anchor non included.

Anti-skid surface colour options

Backstroke Starting Devices

Aquam offers two models of uniquely designed backstroke starting devices, the ProStart Backstroke System, and the EZ Ledge. Both feature an anti-skid ledge (also sold individually), and durable, stretch-resistant, adjustable straps. Both models meet FINA regulations. It should be noted that they have been designed specifically for the Elite Starting Block. For custom fit to other models, please contact Customer Service.

The innovative ProStart Backstroke System is in a class of its own. Unlike other models currently available, it is not mounted on the starting block, a design which gives it two distinct advantages: there is no need to continually install and remove the device between events; and the deck-mounted mechanism is calibrated in increments, allowing each athlete to adjust the ledge height according to individual preference.

The simplified EZ Ledge features adjustable straps and a secure retention plate which fits firmly into place around the starting block.

Starting Platforms

Internationally acclaimed Paragon starting platforms are used in more competition pools than any other platform. Their unique features help competitive swimmers improve their training, technique and performance. Each Paragon starting platform-frame is manufactured from high-grade stainless steel, polished to a 320-grit finish. Each top is a solid sheet of 1.25" high density, UV inhibited polypropylene with cross-grooved, non-skid white sand finish. The platform may be set level or tilted at 10° towards the pool.

A variety of configurations are available to accommodate your specific facility requirements. Two anchoring systems are offered: Para-flyte or Quickset. The Para-flyte models are anchored with 4 bolts to an anchor set in the deck. The Quickset models have a close-fitting sleeve anchor in the deck. They may be installed and removed without tools. Platform styles include Standard, Long Reach, Shortee, Florida, plus dual leg Competitor, Competitor Track Start and Long Reach. Varsity platforms designed for 18" height above water are also available.

All products on the following pages may be powder coated upon request. Ask about applicable fees.

Para-flyte Standard Spec

Standard Starting Platform

This acclaimed universal platform is suitable for most facilities. Since this platform fits most pools, it's one of the most popular on the market. Anchor sold separately.

Price.....upon request

TR-41602 **Para-flyte**
TR-41603 **Quickset**

41602

41603

Long Reach Starting Platform

Long Reach platforms are designed primarily for deck-level pools with wide overflow trenches. It is designed to clear a 30" wide trench or gutter without any support on the slotted stones or coping. The two available models have different configurations. Anchor sold separately.

Price.....upon request

TR-41606 **Para-flyte**
TR-41607 **Quickset**

41606

41607

Shortee Starting Platform

The Shortee platforms are designed for pools where the deck-to-water distance exceeds 12". Since they are 18" high or less above deck, Shortee platforms are not equipped with an intermediate mounting step. The Shortee model is similar in design to the Standard model but without a step and with a fixed "B» dimension of 18" (refer to technical diagram). Anchor sold separately.

Price.....upon request

TR-41614 **Para-flyte**
TR-41615 **Quickset**

41614

41615

Florida Starting Platform

Florida starting platforms are designed for pools with a wide, elevated curb around the pool. The platforms are intended to be mounted atop the curb. Hence, they all present a horizontal dimension of 18" from pool to socket (dimension B, refer to technical diagram). Anchor sold separately.

TrueTread Footboards

The Velocity starting platforms are available with TrueTread—an innovative, non-slip covering that combines comfort and low-maintenance.

Starting Platforms

Spectrum Aquatics offers both single and dual post starting platforms, which include incredible non-slip tops and steps. The stainless steel block tops are coated with a grit overlay providing an incredible level of traction and the plastic tops are made of low density polyethylene and contain a non-slip surface. All models comply with FINA regulations.

All starting platforms can be customized to fit into existing anchors.

Priceupon request

Xcellerator Starting Platform

Applying the latest in approved technology, the Xcellerator Starting Platform contains an adjustable track start wedge and handgrips to give swimmers an extra boost on starts by allowing the knee to start at a 90 degree angle. The superior grit finish on the platform top reduces slipping while the H-style backstroke bar give backstroke swimmers numerous gripping options.

Standard surface color is black, with custom colours and logo options available.

Dual post option is also available.

TR-41800 Xcellerator – Suggested setback of 30"
accommodates setbacks of 18" to 36"

Record Breaker Starting Platform

The Record Breaker Starting Platform features a stainless steel top covered in a superior non-slip material. This platform is easily upgradable to the Xcellerator with the addition of the side handles and a track start footrest. The H-style backstroke bar gives backstroke swimmers numerous gripping options, and the patented anti-wobble anchor promotes stability and ease of removal.

Standard surface color is black, with custom colours and logo options available.

Dual post anchor are available.

TR-41804 Record Breaker - Rear Step (accommodates
anchor setbacks of 30" to 36")

TR-41806 Record Breaker - Side Step (accommodates anchor
setbacks of 18" to 36")

Growler Starting Platform

Growler starting platforms are among Spectrum's most popular starting blocks and are ideal for bulkheads and parapets. They are great for all levels of competition and feature the largest top in the industry (25" x 32" single piece LDPE platform).

TR-41808 Growler – Side Step (accommodates anchor set
backs of 18" to 36")

TR-41810 Growler – Rear Step (accommodates anchor set
backs of 30" to 36")

Custom Logo

Show your team spirit with the addition of a custom logo or by powder coating the block to match your team's colors.

Expansion Post

It is possible to install any Spectrum starting platform into existing anchors with the expansion posts. This solution will allow you to install new starting blocks without undergoing major concrete work. This system also eliminates dual post anchor wobble.

Please contact us for more information.

Single Post Anchor

This unique, patented anti-wobble and locator pin design is superior to all other single-set type anchors.

- No tools required when inserting or removing starting platform
- Machined bronze anchor body ensures extremely tight tolerances and offers superior corrosion resistance
- Locating slot design eliminates rotation and guarantees proper alignment of platform

Aquatic Timing and Scoring Systems

Daktronics timing and score-keeping systems are renowned across Canada. They're offered in a wide variety of sizes and configurations, making them adaptable to any aquatic institution, and can be installed in an existing pool as well as in a new construction. Daktronics systems are appreciated by customers for their reliability and ease-of-use.

Scoreboards

Daktronics offers endless options to create scoreboards suited to each facility's needs. The products range from standard numeric scoreboards to larger video displays capable of broadcasting live video! Optional interfaces are compatible with products from other manufacturers. This allows you to upgrade your equipment incrementally. Daktronics offers a complete solution connecting results and timing, thus bringing you and your spectators the content you want to see.

Touchpads

Daktronics touchpads are designed so as to incorporate 3 conductive plates made of non-corrosive stainless steel. The stainless steel construction provides years of reliable service and will not crack or break under pressure. The front and top of the touchpad provide high sensitivity across the entire non-slip surface so that competitive swimmers can rely on fair and consistent starts and turns. The touchpads fill up with water to equalize the internal and external water pressures, eliminating leaking and floating problems. The touchpads are self-draining; water quickly drains through small holes along the bottom.

Push Button

Daktronics push buttons may be used as the primary timing device in the absence of touchpads, or as a backup timer when touchpads are used. Gold-plated banana connectors and sealed buttons ensure corrosion resistance, prolonging the life and performance of this product.

	Unit (\$)
TR-29160 Push Button	119.00

OmniSport 2000 Controller

This fully functional timer offers multisport functionalities. Three backlit LCD screens indicate current race information, lane status and completed lengths for up to 10 lanes. For more functionalities and user-friendly access, the OmniSport 2000 timer can interface with a laptop. This great device lets you score for swimming, diving, and water polo events. The console features a built-in printer that lets you easily and quickly print out results for each event.

Daktronics Pace Clocks

Both displaying 7" high digits, these Daktronics Pace Clocks display count time up to 59:59 or down to 0:00. The PC-2001 is a versatile portable clock featuring 9 different training options (count-up, start reaction, backstroke reaction, relay exchange, workout program, game clock, shot clock, 12-hour/24-hour time of day). The pace clocks are available in indoor and outdoor models. The PC-2002 model is used for indoor wall mounting only. Operated with the JC-100 controller or the OmniSport 2000 timer, this pace clock can be used for workouts, time of day, game or shot clocks (6 different internal programs).

29150

Relay Take-Off Platform

The Relay Take-Off Platform (RTOP) features a sensor that precisely detects the moment a swimmer loses contact with the platform. Combined with the Daktronics OmniSport 2000 timing system and Daktronics T-6000 series touchpads, the RTOP accurately measures the relay exchange to 1/100th of a second, as required by FINA regulations. The RTOP senses human contact rather than force, which enables the platform to detect the exact moment the swimmer jumps off the starting block.

Omnisport HS-200 Start and Public Address System

The Daktronics Omnisport HS-200 Start and Public Address System offers a complete starting solution for aquatic sports. It features a rechargeable battery that will last for more than 15h on a full charge, an internal 40-watt speaker, and a 360 degrees strobe light. The recall feature can be enabled or disabled, depending on the official's preference. The HS-200 can be programmed to sound a typical start tone or to emulate a gun sound. The HS-200 comes with a wireless microphone option that can be used remotely or connected directly to the unit.

Scoreboards

Led-R Numeric Scoreboards

Colorado Time Systems' LED-R numeric scoreboards are a cost-effective way to provide information, involve the audience, and showcase the athletes for all aquatic sports. Modules can be used individually or combined in multiple-module scoreboard designs. Panels can also be added to the numeric scoreboard for sponsor advertising or facility / team name.

Designed specifically for the aquatic environment, LED-R scoreboards can be set to display information for swimming, diving, water polo, artistic swimming, and other sports by simply moving the digits. Its high-quality construction resists corrosion in any environment, giving you years of trouble-free service.

Video Boards

Video boards can be used as a standalone unit or combined with numeric scoreboards for added impact. Video boards display full color scoring data, text, graphics, animations, live video, video replays, and more.

Water Polo Scoreboards

Multisport Portable

- Rugged powder-coated aluminum enclosure
- High visibility 10" LED digits display game time and home/guest score, 7" LED digits display period
- Designed for wireless use with the tabletop or handheld controller
- Wireless or wired System 6 timing console interface
- Can be used with deck clocks

Portable Table Top

- Rugged powder-coated aluminum enclosure
- High visibility 5" LED digits
- Designed for wireless use with the tabletop or handheld controller
- Wireless or wired System 6 timing console interface
- Optional external horn
- Can be used with deck clocks

Dolphin Wireless Timing

This is an ideal solution for facilities that are currently using stopwatches to time meets. Use of the Dolphin Wireless Stopwatch Timing System saves time and improves the accuracy of recorded times. Touchpads and additional timing equipment can be added as your budget allows.

- Wireless timing system with a fully integrated Hy-Tek Meet Manager interface.
- Provides wireless, synchronized, stopwatch-style timing for swimming competitions.

- Reduces the amount of time and effort required to run a meet and manage data.
- Improves the accuracy in comparison to manual stopwatches by eliminating manual transcription and input.

Each Dolphin system includes:

- Handheld wireless stopwatches for each lane (supports up to 3 lane timers per lane, and up to 10 lanes)
- Starter unit
- Base unit, which connects via USB cable to your computer running Hy-Tek Meet Manager with the Dolphin module.

Handheld Stopwatch

Starter Unit

Base Unit

Turning Board

In deck level pools, or pools where the height of the end or turning wall is insufficient to meet required standards, turning boards are a great option. They provide the necessary height to satisfy regulations, and ensure that swimmers may adequately perform flip turns. The boards are fastened with anchors to the pool deck, but may be removed as needed. Made-to-measure for your facility, and constructed of durable, high-density plastic with powder coated stainless steel frames.

PR-66000 **Turning Board**.....upon request

Finis Turnmaster Pro Lane Separator

The Turnmaster Pro is a portable lane bulkhead designed to maximize lane usage. Easily installed in minutes, the Turnmaster Pro is suspended between two lane ropes, dividing one lane into two. Its streamlined design prevents drag in the water and extends seamlessly across pool lanes, allowing you to optimize your pool space. Built of durable Vinyl Ester chlorine-resistant, fibreglass, the Turnmaster Pro is built to withstand the impact of race speed turns. The Turnmaster Pro will fit most lane sizes.

TimeTrax™ RF Wireless Synchronized Clock System

Put everyone on the same time, everywhere in your facility! This time system uses a wireless radio frequency to broadcast an accurate, synchronized time signal to all receiving clocks. Power and display options are available.

TimeTrax™ Desktop RF Wireless Ethernet Transmitter

- Uses the TimeTrax Sync™ software (included) to broadcast a 1 Watt wireless RF time signal to multiple receiving wall clocks
- Using many signalling channels, it will hop frequencies automatically to eliminate interference, and ensure the continuous transmission of a dependable time signal
- It captures and broadcasts official time (NTP, GPS, or internal) with a signal coverage of up to 250 000 sq. ft
- An LCD backlit display on the transmitter shows the date and time
- Battery backup and automatic time adjustment
- Measures 6.5" W x 2.5" H x 6.5" D

		Unit (\$)
TR-29944	Transmitter.....	1990.99

Battery-Operated LCD Digital Wall Clock for TimeTrax Sync™ System

- Features a six-digit display (00:00:00) with large 2.5-inch high numerals, for a viewing distance of up to 75 feet
- Time may be displayed in 12-hour or 24-hour time
- Receives an accurate time signal from an RF wireless transmitter (sold separately), and automatically corrects every 24 hours
- Features a non-glare, shatterproof, polycarbonate lens and a low-profile, black ABS bezel
- Includes an anti-theft bracket for secure mounting
- Requires two 3.6 V Lithium batteries (sold separately)
- Measures 11.25" W x 4.5" H x 1.5" D

		Unit (\$)
TR-29942	6 digits.....	283.99

Two of these long-lasting batteries are required to power the battery-operated TimeTrax Sync™ System clocks.

Custom Backstroke Flags

Custom backstroke flags are a great way to add style to your pool and give it a personal feel. Several options are available for customization, including flag position and printing. Made of tough stuff, you can expect many years of service from these flags.

Price.....upon request

1 - Determine the width of your pool.

We will add 5 feet (1.5 m) of webbing to the total length of the rope, enough to fasten it to the posts on each side of the pool.

Optional
TR-29112 Extra Webbing

2 - Choose the colour of your flags.

Please note flag colour may vary slightly from order to order.

3 - Choose the style.

TR-29109 Interspaced, 12" Between Flags (per foot)
TR-29119 No Space Between Flags (per foot)

4 - Choose printing options, if desired.

TR-29113 Letters/Numbers 22 cm, Vinyl (per unit)
TR-29114 Single Logo, One Colour, Vinyl (per unit)

TR-29125 1-Colour Custom Printing, On Flag
TR-29126 2-Colour Custom Printing, On Flag

We cannot guarantee an exact Pantone colour match

5 - Determine the number of logos to be printed.

Logos may be applied to some or all of the flags.

Example 3:

Printing on both sides of the flag is possible for 1-colour logos only.

Example 4:

Printing on alternate sides is possible with 1- or 2-colour logos.

Example 5:

Backstroke Flags

We offer 3 models of prefabricated backstroke flags. The Economical model is made of tricoloured vinyl flags. The Deluxe models are composed of heavy-duty plastic cloth flags and a strong nylon cord. They feature the Aquam logo printed on each side.

		Unit (\$)
TR-29000	Econo 3-Colour 30 m (100')	20.99
TR-29100	Deluxe Blue/White 18 m (60')	47.99
TR-29090	Deluxe Black/White 25 m (82')	83.99

Stanchions for Flags and Recall Lines

Used for supporting backstroke lines and recall lines, our stanchions are a must for any pool. Made of stainless steel, our stanchions are capped at one end with a U-hook or with an eyebolt on the side. The stanchion for flags measures 2.29 m (90") in height. The stanchion for recall lines measures 1.45 m (57") in height. The surface finish has been improved to offer a higher resistance to corrosion. We also offer the Paragon sliding collar with eyebolt, which allows you to adjust the height of your backstroke lines and/or install other equipment like our false-start rope. Anchor not included.

	Unit (\$)

DV-82419 Key for Stanchion Anchor Cover	18.00

False Start System

The false-start system ensures the quick release of the recall line, blocking instantly all pool lanes and informing the swimmers of the false start. The mechanism is easy to set off when needed. Thanks to its innovative design, there is no risk of accidentally activating the system. It is very simple to put the rope back in place on the mechanism after it has been released. Made from type-304 stainless steel, the stanchions have a diameter of 1.90" with a wall thickness of 0.065". They measure 1.50 m (58.5") in height. This system conforms to all FINA regulations. It includes a restraining stanchion and a false-start stanchion with mechanism. The rope and weight are sold separately, depending on the width of your pool.

	Unit (\$)

Regulatory Buoy

This polyethylene cylinder buoy is ideal for marking swimming areas or relaying important waterfront information. It was designed to float upright with 30-40 lb of weight, thus allowing a 28" section of the buoy to be visible above the waterline (36" in a swimming area), starting at the rope hole. Signage must be purchased separately.

Buoy Features

- Internal concrete ballast
- Recessed stainless steel eyebolt at bottom of buoy (imbedded in internal concrete base)
- Rope hole for marking swim areas
- 9" diameter

In order to convey the right information to swimmers, you must use the appropriate regulatory marks/signage. The orange vinyl decals are used with the appropriate made-to-measure black vinyl text.

Docking Buoy

The docking buoy will endure through the most extreme marine conditions. It is made of bright orange or white polyethylene, and filled with closed cellular foam. Boasting UV-inhibitor and fungicide properties, this great buoy will resist fire, oil and gas hazards. The docking buoy may also be used to mark out zones on a body of water or to delineate courses for sailboats or other watercrafts.

Grab Rails

Sold in pairs, these grab rails are made from type-304 stainless steel, polished and buffed, with a 1.90" O.D. Each style is available in 0.145", 0.109", and 0.065" wall thicknesses. Please specify your preference when placing your order. Order separately: 4 anchor sockets (DV-82408) and 4 stainless steel escutcheon plates (DV-82490) for each pair of grab rails.

All products on the following pages may be powder coated upon request. Ask about applicable fees.

Figure 4 Grab Rail

This grab rail is our most popular model. Used for flat deck without unusual curbs or coping.

Price.....upon request

PR-63701	0.145"
PR-63702	0.109"
PR-63703	0.065"

Pretzel Bend Grab Rail

It requires the smallest deck width, since it features the narrowest profile. The legs are offset laterally instead of front to back. It can usually be mounted on the pool wall rather than the deck slab.

Price.....upon request

PR-63711	0.145"
PR-63712	0.109"
PR-63713	0.065"

Adjustable Figure 4 Grab Rail

Front leg is adjustable in field so it can be set atop curbs or into gutters. Choose this model when unusual conditions will not permit use of Figure 4 style.

Price.....upon request

PR-63731	0.145"
PR-63732	0.109"
PR-63733	0.065"

California Grab Rail

The California Grab Rail was made extra-wide to clear wide gutters or for exceptionally long deck-to-water distance. Legs offset laterally to minimize deck width requirements. Front end dips downward for a shorter reach for low water level pools.

Price.....upon request

PR-63751	0.145"
PR-63752	0.109"
PR-63753	0.065"

Welded Figure 4 Grab Rail

Suitable for installation on a level deck, this grab rail features an additional weld for extra strength and rigidity. You must provide specific deck and gutter dimensions.

Price.....upon request

PR-63761	0.145"
PR-63762	0.109"
PR-63763	0.065"

Long Reach Adjustable Grab Rail

It is recommended for extra wide gutter systems. The adjustable legs come with stainless steel connectors and rubber bumpers that can be adjusted to the best location on the gutter for maximum stability. You must specify B dimension for a custom fit to your pool profile.

Price.....upon request

PR-63740	0.145"
PR-63741	0.109"
PR-63742	0.065"

Deck Mounted Rails

These rails are intended for any type of pool with premolded steps. Anchorage of the rails to the deck is 8" on center and provides the stability needed without penetrating the molded steps. A variety of models are available to meet any pool or spa configuration. All rails are 1.90" O.D. x 0.065" wall thickness and measure 54" long x 32" high. Anchors and escutcheon plates are not included and should be ordered separately if desired.

Price.....upon request

PR-63791	Sloping Rail
PR-63793	Horizontal Rail
PR-63795	Horizontal Flat Top Rail
PR-63797	Sloping Welded Rail
DV-82408	Ladder Anchor
DV-82490	Stainless Steel Escutcheon Plate

Exercise Rails

These rails may be used as wall rails for additional stability for persons entering pools, showers, locker rooms, hallways, and ramps. They may also help the therapist or client by providing wall-mounted support for warming and stretching exercises and hydrotherapy sessions. All rails are 1.90" O.D. x 0.065" wall thickness. Available in 2 styles: plain ends and return ends.

Price.....upon request

Therapeutic Ladder

This therapeutic ladder has been specifically designed for use by the elderly and persons with reduced mobility. Patrons will appreciate its sloping design and hand rails, as well as the reduced space between the steps. It has also been equipped with a safety panel to keep users from becoming lodged between the ladder and the pool wall.

It is offered in three thickness of tubing (0.145", 0.109", 0.065"), as well as with two, three, four, or five steps.

Anchors and escutcheon plates are not included and must be ordered separately if needed.

Ladders

The complete Paragon line of ladders offers the most convenient pool-entry method wherever stairs cannot be used. Each ladder comes standard with two frames and comprises injection-molded, ABS, UV-inhibited, plastic steps bolted between them. Measuring 1.90" O.D., all frames are made of corrosion-resistant type-304 stainless steel and provide ample length for a 4" anchor penetration. The bolts feature contoured heads curved to fit the tubing of the frames. All ladder styles that include frames rested against the pool wall are equipped with rubber bumpers to prevent damage to the wall.

Each style is also available in .145", .109" wall thickness, as well as 2-step, 3-step, 4-step, or 5-step models. Anchor sockets and escutcheon plates are not included and must be ordered separately.

The Benchmark in Diving Equipment

Three-Metre Diving Stand

Our 3-metre diving stand made its first appearance in 2007, and has since become a reference point in Quebec. Engineers, architects, consultants, and aquatic directors all recognize the unquestionable quality of this product, not to mention its considerable advance in technical characteristics.

Anchors not included

PR-65550 Aquam Three-Metre Diving Stand.....upon request

Characteristics:

- Made of 304 grade stainless steel for maximum durability
- Powder-coated structure for minimal maintenance
- Locking gate to limit access to the diving stand
- 24-inch staircase for safety allows only one person at a time
- Translucent guard rails for increased user safety insure constant visual contact with supervisors/lifeguards
- 1 ½-inch handrails permit small hands to grip safely

Configuration Options

Saint-Jean-sur-Richelieu

Rough-Tex

The ever-popular, best-on-the-market, non-slip Rough-Tex diving platform surface is used on diving platforms around the world. Used on both indoor and outdoor platforms, Rough-Tex can give that added grip and cushioning needed by world-class divers. Rough-Tex, up to 6 ft wide, must be installed onto your surface using good contact cement. It is important to take the proper measurements before ordering. As well, it will be important that the surface you want to install the Rough-Tex on is suitable for this type of application.

TR-39996 Black 2-Ply Rough-Texupon request

Diving Training Platform

This innovative training tool is used by elite platform divers. It simulates diving from a platform but at the pool deck level. Manufactured to meet our high standards, this solid stainless steel polyester powder-coated rigid diving training platform has a non-slip surface due to the fact that the top is covered in Rough-Tex. It is equipped with levelling legs to insure a level, horizontal surface and is quick and easy to install and take out using four 3/8" eyebolt anchors (DV-82406 - included). Should be used in a minimum water depth of 9 feet. No diving program should go without the diving training platform!

Dimensions: 61 cm (24") wide x 365 cm (120") long x 19 cm (7 9/16") high

Weight: 190 lb

Aluminum and Fibreglass Diving Boards

We offer a complete range of durable diving boards for every type of swimming pool. Our aluminum board was designed for heavy-duty use. Its welded beam-extrusion construction with welded ends provides outstanding board action. Our fibreglass board was designed for moderate to heavy-duty use and features solid wood core, hand-laid fibreglass, and tapered design. Both aluminum and fibreglass boards comprise a safe, non-slip surface. Mounting hardware has to be ordered separately for all diving boards.

Diving Towers

All products presented in this page can be powder coated.
Contact us for the applicable fees.

Sportflyte

Designed for recreational pools, this anchored diving tower features a rear or side entry ladder. The fulcrum is adjustable but not geared. It is comprised of a pedestal, a ladder, guardrails, railing, and an adjustable fulcrum.

Other available heights: 0.75 m or 0.5 m.

* pedestal only

Para-flyte

Designed for competition or larger institutional pools, this diving tower features an access ladder that can be mounted at the back or on either side. It's comprised of a superstructure with guardrails, pedestal, geared adjustable fulcrum and rear swivels.

The side ladder tower is recommended wherever deck space is limited; it requires 3 ft less than the rear ladder towers.

* pedestal only

Duradapt

Developed for competition pools, this tower is manufactured to support the Duraform® Short Stand structure (order separately).

Designed only for the 16 ft Duraflex® or Maxiflex® boards. It can be ordered with a side or rear ladder.

It includes superstructure with a ladder with handrails, guardrails and pedestal.

* pedestal only

Durafirm Short Stands

Durafirm Short Stands feature fulcrum units identical to that of the 1 m and 3 m stands, as well as similar guard rails and anchoring units. The stands are designed for use on concrete supports or platforms, using 6 anchors, at either the 1 m or the 3 m levels. The short stands may be supplied with top and intermediate hand rails on two sides, curved hand rails on one side, or no hand rails. When inquiring or placing an order, please specify the deck-to-water distance, and the length and type of the board that will be used. Anchors are not included and must be ordered separately.

Durafirm One-Meter Stand

The Durafirm One-Meter stand is available with top and intermediate handrails on both sides or with curved top and intermediate handrail on right side. It is manufactured in 5 different heights to accommodate deck-to-water level dimensions of 0" to 13". Both the one-meter and three-meter units feature hinged board anchors, which allows for easy rotation of the board up to 180° to clear the pool edge during other activities such as swim meets and water polo matches. When inquiring or placing an order, please specify the deck-to-water distance, and the length and type of board that will be used. Anchors are not included and must be ordered separately.

Durafirm Three-Meter Stand

The Durafirm Three-Meter Stand is only available with double handrails on both sides. The Three-Meter Durafirm features a simple 8-point deck anchorage, which requires no special footings, and can be installed on an existing deck. It is manufactured in 3 different heights to accommodate deck-to-water level dimensions of 0" to 13".

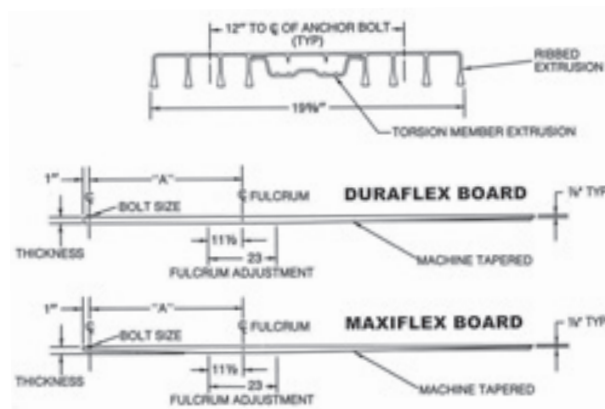

When inquiring or placing an order, please specify the deck-to-water distance, and the length and type of the board that will be used. Anchors are not included and must be ordered separately.

Duraflex and Maxiflex Diving Boards

Known as one of the most cutting-edge diving board on the market, the Duraflex has been exclusively used in all major international events since 1958. It is manufactured from a one-piece ribbed-aluminum extrusion with a single taper from fulcrum to diving tip. It is available in 14 ft and 16 ft lengths. The Maxiflex "B" board is the competition board. Made from the same material as the Duraflex, it features a double taper, from fulcrum to diving tip and from fulcrum to anchor end. This double taper allows the whole board to arch while flexing, giving it more lift. Also, the Maxi-B board comprises a unique diving tip with 189 slots in the metal of the top "skin", thereby reducing the weight of the tip-end. It is only available in a 16 ft length. All of these boards are equipped with a non-slip surface for safety. All mounting hardware is sold separately.

Lifeguard Chairs

Cadira Lifeguard Chair

The unique Cadira chair has been specifically designed for beaches. Manufactured from a high-density plastic, it's extremely solid, resisting UV rays and even certain acts of vandalism. It is easy to anchor it to the ground or install an umbrella on it. It does not require any maintenance. With safety in mind, the Cadira was designed to provide enough room to seat two lifeguards. The chair is equipped with two lateral ladders for rapid ascent or descent. A second bench is located in front, at the base of the chair. It can be used as a second lookout post or as an area used to treat victims.

SA-57609 **Cadira Lifeguard Chair...upon request**

Plastic Lifeguard Chair

Made from high-density recycled plastic, these four chairs are strong and durable. These weather-resistant lifeguard chairs were created for both pools and beaches. The steps and platforms are textured for a better grip. Umbrella bracket included.

Ultra Lifeguard Chair

Ultra Lifeguard Chair

Our Ultra Lifeguard Chair is a unique blend of comfort and safety. For starters, the rear-mount ladder ensures continuous supervision of the pool and deck, even while accessing the seat. The large platform is spacious enough to accommodate two lifeguards, which is particularly convenient during shift changes, and it boasts a non-slip fibreglass grating for added safety. Hooks for the ring buoy and rescue pole are additional practical features. The truly unique characteristic of this chair is the seat, which is height-adjustable, so lifeguards from the tallest to the shortest can find the perfect setting.

Equipped with two wheels, this unit is easily moveable, offering you the flexibility of relocating the lifeguard station for different viewing positions, while rubber feet on the legs provide deck protection and slip resistance. The stainless steel structure is powder coated for improved corrosion resistance and durability. In short, this chair offers unparalleled comfort combined with our customary quality and sturdy construction, meaning that although the lifeguards will come and go, this chair will be around for several years!

Moving your Ultra Lifeguard Chair around the pool has suddenly got easier! One hand is all that's needed to operate this clever dolly. It works like a lever: simply place the towing hook in the space provided and tilt the chair into the desired position. Made of powder coated stainless steel.

Lifeguard Chairs

All products on the following pages may be powder coated upon request. Ask about applicable fees.

Price.....upon request

Paragon Lifeguard Chairs

All Paraflyte chairs have a platform height of 4'6", a seat height of 6'0" above the deck, and are supported by a type-304 stainless steel flanged pedestal. Anchors are sold separately.

SA-57000 Ladder at Rear
Its flare guard rails provide easy access to the platform.

SA-57100 Ladder at Sides
Ideal for pools with limited deck space.

SA-57200 OSHA
Its guard rails extend to the front of the platform for added safety.

SA-57600 Club
The vertical access ladder requires less deck space.

Portable Chair

All chairs are light enough to be easily lifted by one person (the 4-step weighs a mere 70 lb). The sloping front ladder allows easy access to the molded contour seat, and the angled legs add extra stability.

- SA-57548 2-Step**
- SA-57549 3-Step**
- SA-57550 4-Step**

Rover Moveable Chair

This model is an ideal solution for a chair that is needed at different locations at different times. Rugged and stable, yet easily moved by one person due to wheels that roll easily on deck or lawn. This is the perfect chair for supervision, instruction, and judging.

- SA-57300 6 ft Rover Moveable**
- SA-57400 8 ft Rover Moveable**

Rover Semi Permanent Chair

Designed for those pools where the lifeguard chair must be anchored yet still capable of being readily moved. The rear legs are set into sockets anchored in the deck, while the front legs with wheels allow for easy relocation. Anchors and escutcheon plates sold separately.

- SA-57217 Rover Semi Permanent**

Griff's Guard Station and Sun Shade

These chairs feature front entry, elevated viewing station, easy access, and non-skid surface. A wide front step also serves as an additional station and brings the guard closer to the pool edge. Heavy duty wheels allow convenient, easy portability. Stainless steel and fiberglass construction ensure long lasting and trouble-free service.

SA-57220	Flat Guard Station
SA-57221	Elevated Step Guard Station
SA-57222	Full Height Guard Station

Griff's Vision Guard Station

A portable lifeguard station with an innovative, uninhibited wide front viewing edge. Available in one-, two-, or three-step models.

- Occupies minimal deck space and may be positioned close to pool's edge
- Dual side access for uninterrupted surveillance during lifeguard changes
- Cushioned swivel/fold-down seat

SA-57226	One-Step
SA-57227	Two-Step
SA-57228	Three-Step

All Terrain Griff's Guard Station

A versatile lifeguard station that can be manoeuvred over most terrain and may be used in either indoor or outdoor facilities.

- Available in 3 heights: (4 ft, 5 ft and 6 ft)
- Fold-down cushioned seat provided
- Large pneumatic wheels for easy manoeuvring
- Ships flat and assembles in minutes

SA-57223	4 ft
SA-57224	5 ft
SA-57225	6 ft

Lookout Platform Chair

Specially engineered for busy aquatic facilities and water parks. Access from both sides allow two lifeguards on the platform at the same time to maintain uninterrupted guard, during change of shift. Sloping steps allow quicker dismount. Portable, solid stainless steel frame, 360° swivel seat mounted on an extra large 60" x 36" non-skid fiberglass platform. Seat height is 54" from deck. Platform height is 36" from deck.

SA-57203	Platform Chair
-----------------	-----------------------

Lookout Dual Side Mount Chair

Ideal for pools with limited deck space. Convenient access from both sides permits uninterrupted surveillance during lifeguard changes. Portable, solid stainless steel frame, 360° swivel seat is mounted on a 4ft x 4ft non-skid fiberglass platform. Seat height is 54" from deck. Platform height is 36" from deck. Wheels allow for easy relocation.

SA-57205	Dual Side Mount
-----------------	------------------------

Lookout Chairs

Designed for pools that do not require a full-height chair. All Lookout chairs offer an elevated, 360° swivel seat which sits on a non-skid platform. Station provides easy access and dismount. Available in one-, two-, or three-step models. The 1-step standard model has a seat 30" above deck. The 2-step model has a seat 42" above deck. The 3-step model has a seat at 54" above deck.

Lifeguard Chairs

Every aquatic facility will find a product to meet its needs in the line of lifeguard chairs offered by SR Smith. Both stationary and mobile models are offered in various heights and rotational capacities. All of them respect current safety standards, as well as taking into account certain practical aspects of their use.

All products on the following pages may be powder coated upon request. Ask about applicable fees.

Price.....upon request

O-Series Lifeguard Chair

The O-Series lifeguard chair is a unique take on the classic design, with its characteristic circular shape. Equipped with two wheels, this movable chair can easily be placed anywhere around the pool. A 360-degree swivel seat and non-slip footboard ensure not only quick access to the seat, but also the possibility of making a fast break from any angle. Seat height from pool deck: 30" or 42"

SA-56536 O-Series 30"
SA-56537 O-Series 42"

Standard Lifeguard Chair

The 6-foot (1.8 m) Standard chair is equipped with two wheels for easy mobility, allowing it to be placed where needed. It features a 45-degree swivel seat, and a non-slip platform with direct ladder access. Seat height from pool deck: 6' (1.8 m)

SA-56530 Standard Lifeguard Chair

Outlook 1 Lifeguard Chair

This stationary chair has a narrow profile with a single anchor point, requiring minimal deck space. The six-foot (1.8m) seat height, as well as the 360-degree swivel permit an uninhibited view of the entire pool and deck. Hand rails and posts are made of 304 grade stainless steel, and the base post is powder-coated in silver grey for corrosion resistance. Anchor included.

SA-56542 Outlook 1 Lifeguard Chair

Guardian Lifeguard Chair

This permanent chair is recommended for general use in all types of installations. It features a slim design, with an extended platform and hand rails for increased safety. Anchors included.

SA-56546 Guardian Lifeguard Chair

Low Profile Lifeguard Chair

Two wheels make the Low Profile lifeguard chair easy to move around the pool deck as needed. It features a wide (38" x 42"), rear-entry platform for quick entry and exit. Seat height from deck: 32", 42" or 54". Required deck space: 38" x 42".

Gutter Grates

Our gutter grates are custom-fabricated from high-impact PVC specially formulated for the swimming pool environment, to withstand UV radiation. The drop-in gutter grate can be made to fit perfectly into your existing trench. It is quickly and easily installed: no on-site assembly required. Standard feature on this product, a non-skid surface is available in 5 colours: white, almond, light blue, grey and sand. We are equipped to handle single-item custom orders as well as large runs of similar-style grate.

Anti-skid tubing is $1\frac{1}{8}"$ (w) x $\frac{3}{4}"$ (h), spaced $\frac{3}{8}"$ apart.

Molded anti-skid bars are $\frac{5}{8}"$ wide x 1" high, spaced $\frac{3}{8}"$ apart.

Anti-skid tubing is $\frac{3}{8}"$ wide x $\frac{3}{4}"$ high, spaced $\frac{3}{8}"$ apart.

Eyebolts

We carry a vast selection of eyebolts. Supply us with the necessary dimensions for your eyebolt; and we will do our best to find you a match or an alternative choice. Below are some eyebolts that we carry, with the associated dimensions. It is very important to make sure all dimensions match so as to receive the right model. We do carry other models. Please contact our customer service department and they will be happy to help you.

Clark Underwater Loudspeaker

Offering the best sound quality on the market, unequalled clarity and remarkable bass projection, it is undisputedly the best underwater loudspeaker ever built. It's the world's only full-frequency, full-fidelity underwater loudspeaker. For a permanent installation, place it in a large light niche with a face ring kit (sold separately). If users require underwater sound in multiple locations, a tether may be attached to the speaker in order to use it as a drop-in speaker.

It requires an amplifier for operation. We recommend an amplifier stable at 4 ohms that can deliver 125-150 watts at 4 ohms (per speaker).

Swimming Pool Covers

Swimming pools expend energy in a variety of ways, but evaporation is by far the largest source of energy loss. Replacing evaporated water and then heating it requires tremendous amounts of energy and money. Covering a pool solves this problem. Pool cover systems eliminate excessive water consumption, unnecessary heating and above all, save money.

These superior, energy-saving covers outlast all others. They are made with a five-layer system to insulate and protect. The heavy-duty material is UV protected and engineered to provide the most efficient energy saving system for your pool.

- Easy to deploy and retrieve
- Reversible, coated and UV stabilized on both sides for maximum protection
- Available in 3-, 5- and 7-year warranty
- 100% UV stabilized polyester thread
- Superior strength edging – made with PVC coated tarpaulin – will not chalk or flake
- Extruded black vinyl incorporated into edging for weight
- Strategically located water vent holes with weighted edge help covers hold in windy environments
- Panels come complete with heavy-duty, UV inhibited loop ties for attaching the panels to a storage reel system
- Loop ties made of 5/16" heavy-duty synthetic fiber rope
- 304 stainless steel grommets for maximum corrosion resistance

BLACKFOOT SERIES - WALL-MOUNTED STORAGE SYSTEMS

Manually-operated or semi-automatic, wall-mounted pool cover storage systems conserve deck space and allow for ease of cover retrieval and deployment. Structurally designed to support the weight of wet covers. Both Blackfoot winders are manufactured of 304L stainless steel, which is electropolished and passivated to withstand harsh aquatic environments.

**BLACKFOOT 11 RADIO
CONTROLLED WINDER**

BLACKFOOT 1 MANUAL WINDER

BITTERROOT SERIES – DECK STORAGE SYSTEM

The Bitterroot cover storage systems ensure proper handling and storage of pool covers. Made of electropolished 304L stainless steel, they are portable, strong and designed to support the weight of wet covers.

Three options available: single, double or triple tube winder.

Water Polo

Balls

Water Polo Protective Net

Braided with black, fire-resistant nylon, it is composed of 3/4" x 3/4" links, each made of 1/16" nylon thread. The net features a 3/4" side stitching, also made from fire-resistant black nylon. A black 3/4" polypropylene cable is inserted at the bottom of the net for added weight. The net includes 316-grade stainless steel quick-links, installed directly onto the top of the net every 18". They suspend the net and allow it to glide easily over the stainless steel cable. It may be necessary to install a stainless steel cable and a ratchet take-up reel (TR-32100) onto the stainless steel cable. Made-to-measure dimensions. The anchor system (not included) will be determined according to the type of installation needed.

Safety and Rescue

Molded Rescue Tube

At last a rescue tube made to last! Very comfortable thanks to its rounded edges, this is the only rescue tube on the market made of molded EVA foam, granting it top-grade resistance. The 40" rescue tube features reinforced ends, polypropylene cord, 2-inch-wide shoulder-strap with stainless steel snap hook, stainless steel O-rings, and LIFEGUARD logo embossed in the foam on one side. Its vibrant yellow colour makes it highly visible. The Molded Rescue Tube can be used at water parks, lakes, ocean fronts or pools.

The toughest rescue tube on the market!

SA-51775 40" Rescue Tube Unit (\$) 77.99

Rescue Tubes

The Rescue Tubes are suitable for water parks, lakes, ocean fronts and pools. These multifunctional tubes can be used for towing a victim, supporting the rescuer, or they can be handed to a victim for assistance. Both models are triple-coated in red vinyl for protection. The 50" rescue tube is equipped with a 2" loop shoulder-strap. The 40" model features a 2" shoulder strap with brass clip.

Lifesaving Obstacle

Specially built for lifesaving competitions, the lifesaving obstacle meets all ILS requirements. 240cm wide by 70cm high, it is both lightweight and robust. The inner frame consists of a bright and contrasting net made of polyethylene. The outer frame is made of PVC tubing. Buoys on the top line ensure the obstacle is clearly visible and level with the water surface. May be custom-made on request.

		Unit (\$)
SA-58900	Obstacle	468.99

Floating Safety Rope - 8 mm

With the 8 mm Floating Safety Ropes, you can always have on hand a rope perfectly fitted for lifesaving tests. The rope is available in the four mandatory lengths required in lifesaving trials. Lengths are easily identifiable thanks to the distinct colours.

Saver 150 Fins

Lightweight & effective, Saver 150 fins have a modern streamlined blade shape so your legs can work in an ergonomic, parallel position - using less effort and without striking against each other. Fins have rubber ribs and heightened side-protection for directing the water flow. Rubber under the sole makes the fins nonslipping for start and turns. Foot protection makes the fins more comfortable to use.

Aquam and the Lifesaving Society

Ever since the company's beginning thirty-two years ago, Aquam has worked alongside the Lifesaving Society in the prevention of drowning and water-related injuries. As an official sponsor and financial contributor over the past twenty years, Aquam has also been actively involved in improving rescue and safety equipment, and developing the sport of competitive lifesaving. As a result, Canadian lifesaving teams have been able to participate in various international competitions and championships worldwide.

Specialized Vests

Advanced technology gives these harness-style PFDs the advantage of being lightweight, low-profile, and comfortable, for wear at all times in the presence of water.

Mustang HIT™ Inflatable Life Vest - MD-3157

This Hydrostatic Inflator Technology (HIT™) vest is Transport Canada approved, and is designed to inflate in as little as 4" (10 cm) of water. Intended for commercial aquatic environments, it is ideal for maintenance personnel, construction workers, and others who routinely work around unsupervised pools.

Note that it is necessary to replace the re-arm kit every time the vest has been inflated, as well as on a regular basis to insure user safety. Made of heavy-duty, polyurethane-coated nylon.

First Aid

Whether you are stocking an existing kit or starting a new one, Aquam offers a complete range of top-quality first aid products.

As rapid intervention is often required, all of the following items are stocked at all times, and can be shipped quickly.

Non-Sterile Latex or Nitrile Gloves

Latex or nitrile gloves provide a microbiological, chemical and physical barrier against all body fluids. They are primarily used to protect the caregiver. They are single use, and must be applied immediately prior to the intervention and removed immediately following. Gloves must necessarily be changed following any interruption during the treatment. It should be noted that wearing gloves is not a substitute for hand washing. Persons with a latex allergy may use the nitrile gloves.

		Unit (\$)	12+ (\$)
SA-58200	Latex, Small (100)	10.95	9.90

58200

58220

Stretch Gauze Bandage Rolls

These conforming bandages are offered in different lengths, and are used to secure absorbent pads on wounds. They are ideal for immobilizing bandages in areas where an adhesive bandage cover cannot be applied due to difficult contours or abundant body hair, such as open wounds on the calf or forearm.

		Unit (\$)	12+ (\$)
SA-58044	2" Roll	1.00	0.90
SA-58046	4" Roll	1.30	1.20
SA-58048	6" Roll	1.90	1.80

Sterile Gauze Pads

These 8-ply cotton sponge pads are used for cleaning and covering wounds to protect them against contamination. They are meant to absorb blood and allow an injury to dry. They may also be used for swabbing cuts and abrasions with an antiseptic.

		Unit (\$)	12+ (\$)
SA-58000	2" x 2" (100)	4.20	3.85
SA-58010	3" x 3" (80)	6.25	5.50
SA-58020	4" x 4" (100)	11.90	10.9

Non-Sterile Gauze Pads

These highly absorbent 8-ply gauze squares are used to reinforce a sterile bandage applied directly to a wound. They are single-use cotton pads and can be used to protect skin with no open wound.

		Unit (\$)	12+ (\$)
SA-58026	2" x 2" (200)	5.45	3.25
SA-58028	3" x 3" (200)	6.50	6.15
SA-58030	4" x 4" (200)	7.25	6.90

Alcohol Swabs and Antiseptic Towelettes

Individually wrapped, these latex-free products are a must for any first aid kit. Both are non-woven, sterile and single-use only. The alcohol swabs contain 70% Isopropyl alcohol and are intended primarily for disinfecting material; the benzalkonium chloride antiseptic towelettes are used for cleaning and disinfecting minor wounds.

		Unit (\$)	12+ (\$)
SA-58177	Swabs (200)	7.50	7.00
SA-58175	Towelettes (100)	7.35	6.95

58177

58175

Cotton Balls

Non-sterile and single use only, these little white cotton balls are primarily used as hygienic swabs to clean the skin around cuts, scrapes, or minor and superficial burns. They are also completely safe to use around the eye, ear and nose areas.

		Unit (\$)	12+ (\$)
SA-58185	Cotton Balls (500)	6.90	5.90

Elastic Bandages

These reusable elastic bandages are used to immobilize, compress and support joints after a minor injury such as a sprain. Available in several widths, they may also be used to secure bandages in difficult areas where compression is required.

		Unit (\$)	12+ (\$)
SA-58112	3" Bandage	0.85	0.82
SA-58113	4" Bandage	1.00	0.96
SA-58114	6" Bandage	1.31	1.26

58113

58114

58112

Sterile Compression Bandages

They are meant to apply pressure to severely bleeding injuries without inhibiting blood circulation or adhering to the wound. Individually wrapped, each bandage is supplied with clips to maintain pressure on the wound without the use of adhesive tape. In certain situations, the compression bandage may replace manual pressure, enabling the first aider to attend to other areas requiring emergency care.

		Unit (\$)	12+ (\$)
SA-58080	2" Bandage	1.40	1.30
SA-58085	3" Bandage	1.20	1.10
SA-58090	4" Bandage	1.55	1.40
SA-58095	6" Bandage	2.55	2.30
SA-58098	With Pressure Block 4.40	4.00	

Plastic Adhesive Bandages

The plastic MedPro bandages are made of perforated, water-resistant material with an absorbent non-adherent pad. Their breathable material does not trap moisture.

		Unit (\$)	12+ (\$)
SA-58150	Medpro, Plastic (100) 2.95	2.60	

Transpore Tape

Gentle, hypoallergenic, and strongly adhesive, this transparent tape is ideal for quickly securing thick bandages, such as eye pads. Perforated and breathable, it won't trap humidity on the skin surface. It can be torn easily into thin strips in both directions, even while wearing gloves.

		Unit (\$)	12+ (\$)
SA-58135	½" wide	1.75	1.50
SA-58140	1" wide	3.50	3.30
SA-58145	2" wide	6.25	6.00

Assorted Elastoplast Bandages

These woven adhesive bandages are convenient for covering all types of small wounds. They are sturdy and durable. The woven fabric stretches with the skin's movement, and the strong adhesive keeps the bandage securely in place. Each bandage has an absorbent, non-adherent pad which protects and cushions the wound comfortably. They are available in various sizes and shapes to accommodate everything from small wounds on hands to larger ones on knees or elbows. The rolled bandage may be cut to a desired length.

		Unit (\$)	12+ (\$)
SA-58151	7.5 x 2.2 cm (100)	17.85	16.85
SA-58152	5.0 x 7.5 cm (100)	61.00	57.50
SA-58153	3.8 x 3.8 cm (100)	29.95	28.30

SA-58156	Knuckle (100)	31.00	28.95
SA-58158	Rolled (8m)	49.90	46.00

Eye Pads

Covered with a fine mesh gauze, these soft cotton pads are specially shaped to fit the eye cavity. They are used to cover the eyes in case of lacerations, burns or other injuries. They may also be used to stabilize small debris lodged in the eye.

		Unit (\$)	12+ (\$)
SA-58099	2" X 1.5" (50)	21.90	19.90

White Adhesive Tape

Waterproof and very comfortable, this all-purpose hypoallergenic tape is latex free. It may also be used to secure bandages and clips.

		Unit (\$)	12+ (\$)
SA-58120	½" Tape	1.70	1.65
SA-58125	1" Tape	2.10	1.99
SA-58130	2" Tape	5.50	4.99
SA-58146	Steri-strips (6)	3.25	3.10

Hot or Cold Compresses

The reusable compress goes from microwave to freezer and may be used in different ways. Warm, it will soothe muscle aches, such as neck or lower back pain; cold, it will relieve nerve pain. It can also be used to reduce inflammation and bruising. Non-toxic, flexible, and latex-free, all three models are single-use only and will provide instant heat or cold by folding the compress in half. The hot or cold effect lasts about 20 minutes.

		Unit (\$)	12+ (\$)
SA-58304	Reusable, Cold/Hot	2.90	2.80
SA-58305	Instant, Hot	1.50	1.35
SA-58300	Instant, Cold (L)	1.35	1.20
SA-58302	Instant, Cold (S)	1.10	0.99

Multi-Purpose Speedsplint®

Made of highly visible yellow extruded plastic, this easy-to-use splint is perfect for fast, temporary immobilization. It may be worn during X-rays. The Speedsplint offers a universal fit for adults and children. Strong, very light and humidity resistant, it can easily be cut and adjusted to improve comfort. Instructions printed on the splint.

Dimensions: 4" x 8"

		Unit (\$)
SA-52700	Speedsplint	13.50

Foam and Aluminum Splint

This easy-to-use, X-ray friendly aluminum splint is covered in rubber foam. It can easily be cut with a pair of scissors to obtain the exact shape required to properly secure an injured member.

		Unit (\$)
SA-52600	4" x 36" Splint	11.90

Recycled Fibre Blanket

Indispensable first-aid item, this recycled-fibre blanket is recommended for emergency rescue or in the case of fire. Designed to warm up and protect a victim, it can also serve as a makeshift stretcher if needed. Economical and durable, this blanket is a must-have for first responders, schools and in first-aid rooms. Made of felted material.

Dimensions: 60" x 84"

		Unit (\$)	12+ (\$)
SA-58225	Blanket	17.50	15.95

Scissors and Tweezers

Scissors and tweezers are indispensable tools in a first-aid kit. Tweezers are primarily used for taking out slivers, or removing pads, compresses and bandages. The scissors cut effortlessly through all types of gauze, bandages or close-fitting clothing.

		Unit (\$)	12+ (\$)
Scissors

- Head plug - hermetically sealed, easy to open, and stays attached to the manikin to prevent loss
- Good grip at the nape of the neck, the chin and the underarms.
- 4 pound weight, contains no lead

Professional Manikins

Realistic to the eye and the touch, the Prestan Professional Training Manikin series is unlike any other on the market. Available individually or in convenient multi-packs of four for class training purposes, these manikins are uniquely designed to give each student a realistic experience that provides for the best «real life» CPR outcomes. Available with or without the CPR feedback monitor. Three-year warranty.

- Available in adult, child and infant models
- Easy to carry and setup at training sites
- Patented face/head tilt simulates how an actual victim's head would move if he required CPR and teaches students how to properly open the airway
- Easily inserted face-shield/ lung-bag provides visual chest rise to ensure students receive the most accurate and realistic training
- Face shield is secured so it won't slip and there's no need for adhesives
- Not made with natural rubber latex

Amazing Feedback Tools Make All The Difference!

Prestan's revolutionary CPR Rate Monitor provides instant feedback for the rate of chest compressions. Students can gauge speed on their own. Instructors can monitor several students quickly and easily. Lights continually signal rate progression, confirming compressions are within the 100-120 cpm range recommended by the AHA Guidelines. The yellow light will blink if the 120 cpm upper limit is exceeded, warning students to slow down.

Students can also be confident they are compressing to the appropriate depth. The unique Clicker Mechanism provides an audible confirmation when the correct compression depth is reached between 2.0 -2.4 inches.

Clicker is in all Professional Manikins / CPR Rate Monitor is optional

UltraTrainer

This compact and lightweight unit will give students a realistic training experience with training pads that sense when they are placed on a manikin. In addition, the pads are preconnected and voice prompts are clear and calm. Instructors can customize their training classes with options to turn on or off the compression metronome and/or the "give breaths" voice prompt. 3-year warranty.

Clothing & Accessories

Official Clothing Line

Specially marked clothing and accessories make lifeguards easily identifiable, in both indoor and outdoor facilities.

T-Shirt, Tank Top and Hoodie

The cotton tee and tank are perfect for indoor pools, or outdoors during hot summer days. The hoodie, which features a kangaroo pocket and a drawstring hood, is a great coverup for chilly mornings. T-Shirt and tank: 100% cotton. Hoodie: 50% cotton/50% polyester.

Custom logo printing on the front is available. Contact customer service for further details.

Storage

Aquam Storage Systems

They can only be used with Aquam belts as they are equipped with the same clips used to make our straps.

Capacities:

- Dorsal balls : 24 dorsal balls (2 rows of 12 units)
- Aquafitness and ATX belts : 12 belts
- Waist and Aquafun Belts : 18 belts

	Unit (\$)
AC-83045	Aquafitness and ATX 187.99
AC-83047	Dorsal Balls..... 187.99
AC-83048	Waist and Aquafun... 187.99

83045

83047

83048

Mat Storage Systems

These sturdy unit, which are entirely made of polyester powder-coated stainless steel, were specially designed to store Aquam mats.

- AC-83035 : Holds up 25 TR-37501 mats (0.5")
- AC-83040 : Holds up 3 ER-02200 mats (2")

	Unit (\$)
AC-83035	Mat Storage System 208.99
AC-83040	Large Mat Storage System 166.99

83035

83040

Sea Serpent Storage Carts

Both models are equipped with high-density plastic base, non-marking swivel castors, and stainless steel hardware.

Sea serpents not included. Assembly is required.

AC-83135 : 1.3 m high x 80 cm base diameter, capacity : 30
AC-83118 : 1.8 m long x 76 cm wide x 1 m high, capacity : 100

	Unit (\$)
AC-83135	Vertical 582.99
AC-83118	Horizontal..... 1002.99

Fin Storage System

This wall-mounted unit is designed to hang approximately 30 fin pairs on powder-coated stainless steel rods. It may be installed either in an equipment storage room or on the pool deck. In order to use this system, grommets must be installed on the fins, a service we offer.

	Unit (\$)
AC-83000	Fin Storage System .. 362.99
ER-07400	Grommet Installation 6.99 (on Fin Pair)

Equipment Net

The Equipment Net allows you to conveniently —and economically— store balls and light equipment.

Dimensions: 29" long x 23" wide
Dimensions: 42" long x 34" wide

	Unit (\$)
AC-83110	Small Equipment Net 10.99
AC-83115	Equipment Net 16.50

Storage Unit for Kickboards and Pull Buoys

This wall-mounted unit keeps kickboards and pull buoys neatly arranged on the pool deck or in the equipment room. Made of high-density plastic, they both have a storage capacity of approximately 25 to 30 units. Assembly is required.

		Unit (\$)
AC-83120	Kickboard Shelving Unit.....	309.99
AC-83125	Pull Buoy Shelving Unit.....	309.99

Dolphin Floating Seat Storage Cart

This storage cart is designed to help you store and transport up to 14 Dolphin Seats easily. It is made of high-density plastic, stainless steel hardware and non-marking swivel castors. Dolphin Seats not included. Assembly is required.

Dimensions: 64" long x 33" wide x 39 3/8" high

		Unit (\$)
AC-83145	Dolphin Floating Seat Storage Cart.....	597.99

ToteMaster Storage Carts

These all-purpose carriers are the solution you need to keep the pool deck clear and organized. Available in two sizes, the regular ToteMaster and the ToteMaster Plus, for maximum storage capacity.

- Capacity: 25 balls for the regular cart, 50 for the Plus cart
- ToteMaster Plus: a divider is included
- Both feature a lockable hinged lid (lock not included)
- Both are powder coated, all-welded steel wire

Dimensions

- Regular: 36" L x 24" W x 36" H
- Plus: 60" L x 24" W x 36" H

		Unit (\$)
AC-83210	ToteMaster	341.99
AC-83212	ToteMaster Plus.....	492.99
PAC-83210	Replacement Casters (4)	341.99

Collapsible Bulk Container

This container is the solution you need for robust and high capacity storage.

- Stack up to 4 containers high for a weight capacity of 2000 lb
- Vented panels to allow air circulation
- Hinged drop door
- Spring automatically latches lock sidewalls
- 4 casters: 2 swivel and 2 locking
- Easy to assemble
- Dimensions: 39 1/4" L x 31 1/2" W x 29" H
- Construction: high density blue polypropylene
- Total capacity (1 container): 600 lb

*This product is a complete container (with lid and caster set). Its other pieces are available and sold separately to allow the stacking of multiple containers.

PAC-82800-02 Replacement Fix Wheel	22.25

AC-82900 Small Storage Unit	16.95
--	--------------

Shelving Unit

Four shelves facilitate equipment storage and organization. The unit can accommodate 16 small storage boxes (AC-82900). Swim equipment and boxes not included. Assembly is required.

Dimensions: 59" L x 19" W x 48" H

	Unit (\$)
AC-83135 Shelving Unit	582.99

Vest Storage Cart

This PVC storage unit lets you hang your vests to allow proper drying while keeping your storage room neat. It can fit approximately 60-70 vests. Equipped with a high-density plastic base and non-marking swivel castors, this unit is durable and easy to maneuver. Hangers and vests not included. Assembly is required.

Dimensions: 64" L x 30" W x 75 1/2" H

	Unit (\$)
AC-83139 Vest Storage Cart	934.99

Aqua-Step Storage Cart

It helps moving material around and keeping the pool deck clear. It stores up to twelve Aqua-Steps and is equipped with locking wheels for safety. Made of aluminum, stainless steel and high-density plastic.

Dimensions: 64" L x 30" W x 36" H

	Unit (\$)
AC-83132 Storage Cart	866.99

Pull Buoy and Kickboard Storage Cart

Made from high-density plastic, stainless steel hardware, and non-marking swivel castors, this cart is durable. The top part holds approximately 25 rigid kickboards and 40 pull buoys. The bottom part can hold 8 small storage units (AC-82900) or another 48 rigid kickboards. It can be wheeled around easily. Swim equipment not included. Assembly is required.

Dimensions: 36" L x 30" W x 60" H

	Unit (\$)
AC-83134 Storage Cart	1079.99

Tube Storage Cart

This cart can fit approximately 9 tubes with an inside diameter of 14". Equipped with a high-density plastic base and non-marking swivel castors, this unit is durable and easy to maneuver. Tubes not included. Assembly is required.

Dimensions: 76" H x 31 1/2" D

	Unit (\$)
AC-83130 Tube Storage Cart	429.99

Deck Stor-A-Way®

Made of ABS plastic, it is designed especially for storing aquatic equipment. Its shelves are perforated, allowing stored items to dry properly. The fiberglass base of the Stor-A-Way is mounted on wheels. Well ventilated and lockable, this cupboard is a practical solution to pool equipment storage.

Dimensions: 33" L x 31" W x 70" H. Weight: 160 lb

Automatic Pool Cleaners

NEW

maytronics

We now offer the Wave line, Dolphin's commercial robotic pool cleaners. As an authorized distributor and repair centre, we are pleased to offer a range of products that meet the specific needs of all types of aquatic installations.

Our Services

To keep your equipment running well and avoid inconvenient breakdowns, we suggest regular maintenance and repair due to normal wear. If you entrust your pool cleaner to our care, our certified technicians will accurately assess any problems and proceed with the necessary repairs. We also keep an inventory of replacement parts.

Portable Filter Vacuum Pump and Cart

You can carry your vacuum pump without any trouble. It comes with a Pentair portable filter vacuum pump. The cart is powder-coated with a blue rust-inhibiting paint. The caster-type wheels are made of solid rubber. The filter vacuum pump unit comes with 100' of #12-3 grounded rubber-coated electrical cable. A CSA-approved on-off switch and a built-in GFCI are mounted on the pump cart. The portable filter vacuum pump has been tested for compliance with safety standards and regulations. It is certified by the CSA inspection agency.

Glacier II BP 600

The Glacier II lift is a 600lb capacity battery powered lift made of extremely corrosion resistant 316L stainless steel components. Designed as a space-saving ramp replacement, this lift will be an integral part of the pool for its entire life span. Robust design components include a stainless steel drive screw, dual 50mm width belts for leveling, polycarbonate anti entrapment assembly and 1/2" thickness HDPE panels. Adjustable upper and lower limit switches and slotted stainless steel deck plate allow for varying installation conditions. This lift comes with two rechargeable lithium ion batteries (40 lifts per charge) and a wireless transmitter.

HD-99540 Glacier II BP 600

Aquatic Accessibility

We offer a number of adapted accessibility solutions for individuals with reduced mobility, permitting a safe pool entry for all users.

Please note that due to their size and weight, these items must be shipped by a freight carrier.

Order Information

Credit Policy

All new or infrequent clients will be shipped their merchandise prepaid, MasterCard or Visa, until a credit line is established with our credit department. Past due invoices will carry a service charge of 2% per month (24% per annum). Any past due account will be turned over to a third party collection service. The purchaser will be responsible for all costs incurred in collection and attorney's fees.

Terms

Terms, for open accounts, are net 30 days from invoice date and are shipped F.O.B. our warehouse. Shipment on new accounts is subject to credit approval. Delinquent accounts will be placed on credit hold and, after payment in full, may be subject to the following terms: prepayment, Visa or MasterCard.

Price Changes

Due to the continual change in the price of raw materials, we would like to take this opportunity to remind you that prices are subject to change without notice. **We will do all that is possible to maintain our current published prices.**

Transportation Claims

Shipments leave F.O.B. origin. Once the shipment has been released to the freight company, Aquam Aquatic Specialist Inc. cannot be held liable for freight damage or delays. **Upon receiving your merchandise, inspect it immediately!** If there is any visible damage to the packaging, note it on the bill of lading.

If you find any hidden damage to the products, you must report this to the freight company within the time limit allowed by the freight company, usually 24 to 72 hours. All claims for damaged goods must be done directly with the freight company. Keep all packaging, and contact Aquam Aquatic Specialist Inc. to inform us of the situation; there may be some information you may need from us.

Shortages

All discrepancies between contents of packages and packing slip must be reported to Aquam Aquatic Specialist Inc. in writing within 3 days of receipt of shipment. Full details are needed, including packing slip and client purchase order numbers. Photos may be requested.

Custom / Special Orders

Custom or special orders require a 50% non-refundable deposit at the point of order. Special orders may not be cancelled or returned for credit.

Returns

Merchandise may not be returned without prior approval from Aquam Aquatic Specialist Inc. Contact our customer service department for your Return Authorization Number, which must be marked on the outside of the box.

Any merchandise returned without the proper return authorization number will be refused and the purchaser will be responsible for the freight both ways.

Authorized returns are subject to inspection before credit issuance and are subject to a 25% restocking fee.

Warranty

All products distributed by Aquam Aquatic Specialist Inc. are covered by manufacturers' warranties and are the responsibility of the manufacturer. Customer service can help you with any warranty questions you may have. No other warranties, expressed or implied, are made by Aquam Aquatic Specialist Inc. or any of our agents.
