

Hi Everyone,

Firstly I hope that you and your families are staying safe and healthy.

Really no updates but to reiterate the reminder about unsanctioned play for players going forward throughout the first half of 2021.

Firstly, a reminder around unsanctioned play. Any player who is registered on a sanctioned team is UNABLE to participate in any unsanctioned play that may or may not be happening. It completely voids their insurance and breaks the cohort rules.

For anyone choosing to participate in unsanctioned play, a reminder that this is not recommended or supported by RO. For anyone who may be participating in this play nothing that is affiliated with a sanctioned activity, association or team can be used (website, team chat, jerseys with team information, email addresses etc.) This will impact your ability to be in good standing in future years.

Should you have any questions about options for adult play for the rest of the year please reach out to me.

Thanks,

Stephanie
