

# Western Region Ringette Association

## Directors Report

General Meeting – February 2018

Our Coordinator's and executive continue to do an excellent job helping to administer our sport here in our region. A reminder that they are all resources to assist you and members of your associations. They have experience and training in different areas of ringette. If you need any help please reach out and speak to one of us – if we don't have the answer for you immediately – we will get it for you.

A huge thank you to Chris Sharpe and the group of volunteers from WORL who have spent a significant amount of time reviewing and updating the Matrix. At our executive meeting last week the WRRRA unanimously supported this new Matrix effective immediately. Please take some time to review the new Matrix and bring any questions to this months meeting.

The next ORA board meeting is being held in Toronto the weekend of May 5<sup>th</sup>. If you have any questions or issues that you want me to bring forward please let me know. On that note, the ORA board is looking for qualified candidates to join the board for the 2018 -2020 term. Myself and the other Regional Director's are chairing the Board Nominations Committee, if you know of someone who would be good to bring forward with an HR or finance background please let me know.

The opportunity to thank our volunteers from within our associations is in the near future as the call for nominations for the ORA awards will be open shortly – please try and think of outstanding volunteers and leaders within your associations. And this includes players in the various positions of forward, goaltender and defense - let's make sure that Western Region is well represented at this year's AGM and the awards dinner.

Once again, I would like to thank our great team in Western Region and all of our Coordinators for their support. Please take the time to review their reports and come to our meeting with questions. Let's continue to have a great season!

Brian Breckles  
Director, Western Region
