

# Western Region Ringette Association

## Elite Report

September 12, 2019

Hello everyone,

This year – John Mezenberg and his AAA bench staff selected six developmental players to attend practices and camps to give them an idea of the AAA program in preparation for the 2021/22 AAA Program. They have had a very positive response so far.

The first Training Camp was held in Elmira on August 16-18 and was a great success with the team staying together at one of the local family's home.

The Second Training Camp is to be held on September 20-22 in Guelph and similar to the first camp the players will be staying together at a local family's home. The team will be having two exhibition games over that weekend (Saturday at 4pm at Victoria Arena and Sunday at 12:30pm at UofG Arena)

As both a team fundraiser and a way for players to give back to their region the team is working to set up clinics around the Region for the AAA players to come out and work with local players on various skills and Drills. If associations are interested they can contact John Mezenberg.

The Western Region AAA team has set up a showcase game during the St. Marys tournament. If any associations are interested in hosting a game the bench staff would be happy to set something up.

The girls are preparing for their first challenge cup to be held in Eastern Region over the Thanksgiving weekend.
