

Sports Development Report
November 22, 2012

Copies of the Skills Matrix and Team Composite scores are still trickling in from numerous associations throughout the region. If you have not already submitted copies of the first Skills Matrix for your U8, U9 or U10 teams please email me an electronic copy as soon as possible. So far there has been a lot of positive feedback from the teams who have completed the Matrix. We have definitely seen an increase in the number of teams completing the Skills Matrix compared to last season.

Just a reminder all teams U19 and below should be filling in their Team Activity Logs, which should be submitted electronically at the end of the season.

Please contact me with any further questions or concerns.

Thank you,

Erienne Beuglet
