

# Western Region Ringette Association

## Elite Report

November 21, 2019

Hello everyone,

This first AAA Challenge Cup event took place in Eastern Region from October 11-13. Our Western Region AAA team battled hard in some tight end-to-end games. They tied the United team 6-6, lost by one goal to the Northeast team and by 2 goals to the Southern team. The Southern Region AAA team earned 8 points in the event landing them in the top spot.

The second AAA Challenge Cup takes place this weekend in Sudbury. I recognize that it is a lengthy trip but if you have the weekend off it would be great to see you in Sudbury supporting our players.

If a trek to Sudbury is out of the question for you then consider a short trip to St. Marys. The Western Region AAA team has set up a showcase game during the St. Marys tournament. The game vs the University of Laurier team will be played on Saturday December 7<sup>th</sup> at 3pm at the Pyramid Recreation Center. I hear it is a quaint and picturesque town with some really great citizens. 😊

If any other associations are interested in hosting a game the bench staff would be happy to set something up and year – John Mezenberg and his AAA bench staff selected six developmental players to attend practices and camps to give them an idea of the AAA program in preparation for the 2021/22 AAA Program.

Lucky for us the third Challenge Cup event will be held in Waterloo from February 14-16, 2020. There really isn't an excuse not to attend this one !!!

REMINDER - As both a team fundraiser and a way for players to give back to their region the team is working to set up clinics around the Region for the AAA players to come out and work with local players on various skills and Drills. If associations are interested they can contact John Mezenberg.
