

Adult Report – November

Western region has several players taking advantage of the new 2-team agreements for Adult players.

ADP is looking to expand this to between any 2 levels (as per the previous affiliate contracts). This will be beneficial in years where goalies are few and far between. (Current motion to the board)

The committee will be discussing in January options to allow university students to play both at home and at school, which sometimes is the same level team. Many are on fully registered university teams which only play in a few tournaments.

Adult Challenge Cup is not yet finalized for Spring 2014 but one association has come forward as a possible host.

Reminder that all tournaments substitutions require ADP approval.

Reminder that all ejections must be reported to ADP.

Reminder that all major penalties must be reported to ADP (in addition to any league requirements).
