

WRRR Coaching Report September 2021

Bench Staff Qualifications Refresher:

- All teams must have a female head coach or assistant coach.
- All teams U10-U19 must have a registered trainer on the bench.
- Managers are no longer permitted on the bench as of this season. As a last resort to permit team viability (for this season only) however managers may be permitted to be on the under exceptional circumstances (with RO approval and subject to completion of the coach initiation course and either safe sport or respect in sport.
- 18+ coaching requirements revised.

Many of our member associations are concerned the continuing addition of training requirements will negatively impact their ability to attract/retain bench staff and potentially threaten the viability of teams.

CSI/CI/MED courses being posted by Karla.

RO Hosting a course "Building a Positive Parent Culture and a Better Return to Sport" on October 4th at 7pm. Registration info to be posted on social media.

Concerns raised by RO office about lack of bench staff registered in RAMP even though many associations were on the ice.

Good use of basecamp to share information across associations.

Keith sent "survey" to Association Presidents so I can collect contact info for Coaching Coordinators/Directors. Have only received answers from Kitchener, Dorchester, Tillsonburg, and Hanover.

Please send this link to the appropriate individual in your association <https://forms.gle/8ioQLDauswiyqKjR7>.
I need this info so I can schedule a coaching coordinators meeting.

Respectfully Submitted,

Adam McKinlay
WRRR Coaching Director
