

WRRR Coaching Report December 2021

Some issues continue with bench staff formation but the accommodations made for this season have helped immensely. Bench Staff Qualification deadline extended to December 31, 2021.

Even with different clinic options (nights/weekends/combo) some people have been unable to complete.

Nothing issued on 4 minute rule as I was not provided precise wording.

I communicated the new stick tap "rule" via the Association Coaching Rep basecamp but application is not 100% consistent. Received lots of feedback that RO should not issue these kinds of things strictly solely via social media posts and should use more member notices.

Tournament selection and acceptance rollout caused a lot of confusion and frustration. One association thought there would be no tournaments for U10 due to a basecamp misinterpretation.

Received 2 requests this week for more info on the process for pool formation at provincials. *(Nancy can you help with this?)*

We have not gotten anywhere in regards to CI evaluators in the region. Need to press this issue at next coaching committee meeting.

Looking for content ideas for coaching section of new website.

Questions raised about Head vs Assistant coach requirements. "If it can be different at U14AA, why not in other divisions?"

Had some negative feedback on CI clinic content in particular the plan spreadsheet. Facilitators received lots of good feedback.

Lots of conversations on 2 team rules. Most people I've talked to don't understand why we can't 2 team A to AA or B to B. I realize this is an RO rule, NOT a league rule but almost all the people I've talked to feel it needs to be revisited.

Hard copy code of conduct forms are no longer required by RO, I don't feel we need to collect these as a region.
