

Not a lot on the agenda as it relates to High Performance programming at the moment but there are some things on the horizon such as:

- RO is hoping to host a AAA final tournament April 22-24 in Kingston but this has not yet been finalized or shared publicly
- There will be an Ontario Winter Games in February 2023 (replace 2022 event) as well as in February 2024 (regular cycle). RO is still working to finalize details on how teams will be determined for these events.
- Team Ontario Tryouts will be in May. RO is still working to finalize details as well as update the process for player identification and invites given that players missed two Challenge Cup events as well as Ontario Winter Games.
