

Membership Services Report

Great to be back in full swing for this season.

Thanks to all associations for your patience with the releases. While the process was still cumbersome and I feel we need to come up with an improved process it went fairly well.

We completed 184 releases – I believe there are still some regional releases that haven't been completed. We don't see many at the regional level, but with combined teams they are out there. Many regional level bench staff aren't aware of the release process, so if you could kindly reach out to your regional teams and ask if they have any out-of-town players would be appreciated. You can have them email me and I will step them through the process.

We've talked about a 'handbook' to be available so everyone is aware of the process and I'm hoping that is something we can complete in time for the start of tryouts.

Thanks
Elly Simpson
