Kobe K3G Sublimated Name Bar

For both consistency, continuity, and care when attaching your name bars to the jerseys, all name bars should be attached 1.5 inches below the # (the top of name bar not the name), centered on the jersey as well as the color of the name bar attached to the jersey of the same color. It is important that the name bars are attached by hand or if you are attaching by machine that you have experience doing so using a loose zigzag for ease of removal as the integrity of the jersey and name bar are of the utmost importance. Attached are pictures of the name bar on the jersey for your reference representing placement of the name bar on the jersey.
